TILE & GROUT SEALER

REVISED: OCTOBER 2004

DESCRIPTION

Tileguard Tile & Grout Sealer is a clear penetrating solution that waterproofs tiles and grout without a slippery film coating. TEST AREA. Always test on a small inconspicuous area, to ensure that the product is achieving the desired result, or that it does not discolour the tiles prior to application over the entire area.

FEATURES AND BENEFITS

- Easy to use
- Invisible moisture repellent film
- Non-slip
- Water resistant
- Proven technology

SURFACE PREPARATION

- Remove any silicone sealant strips and soap build up. Clean mould off tiles and grout using Tileguard™ Mould Rid™ or bleach. Rinse thoroughly with water, after cleaning.
- Remove and patch all loose or missing tile grout. For improved quality use Bondall Hydrocrete as an additive in the grout.
- Application area should be dry for approximately 12-24 hours before applying Tile & Grout Sealer.

APPLICATION

- Tile & Grout Sealer should be tested on a small section of tile and grout to gauge for any discolouration that may occur.
- Application should start from the top of the wall, brush Tile & Grout Sealer liberally over tiles and grout. Finish with the shower base. Ensure that Tile & Grout Sealer is applied thoroughly too all surfaces.
- Allow at least 15 minutes for the first application to react, before repeating the entire area.
- Allow at least 15 minutes for the second application to penetrate then use a dry cloth to wipe off any excess left on the tile surface.

COVERAGE

Tile & Grout Sealer will treat approximately 5 square metres depending on the texture, porosity and method of application.

THINNING

Not recommended

Wholly Australian Owned & Manufactured
