## Reflecta-GDI Plus™ the original

**Reflecta-GDI Plus™** is a breakthrough in protecting the insulation surface from oxidisation and corrosion.

The highly reflective garage door insulation is made up of two layers of extra pure aluminium foil reflecting 97% of radiant heat.

Each layer of foil is heat laminated to a tough layer polyethylene sandwiching air pockets for thermal insulation.

The lightweight yet tough construction of **Reflecta-GDI Plus™** ensures hassle free DIY installation which is both cost effective and durable.
