

FEEL THE FREEDOM AND CREATE YOUR OWN CLEAN, CONTEMPORARY AND COMMERCIAL INSPIRED DESIGNS.

If you get your home design inspiration from the modern, high-end apartment, office and retail complexes of urban landscapes, then Scyon™ Matrix™ cladding is for you. Just by adding a Matrix feature wall or architectural highlight to your home, you can transform even the most traditional design into something unique and eye-catching. Or use Matrix cladding as your primary building material to create a bold and industrial look throughout.

Matrix Cladding in a staggered vertical layout

Matrix Cladding in a horizontal layout

Matrix Cladding in a horizontal layout

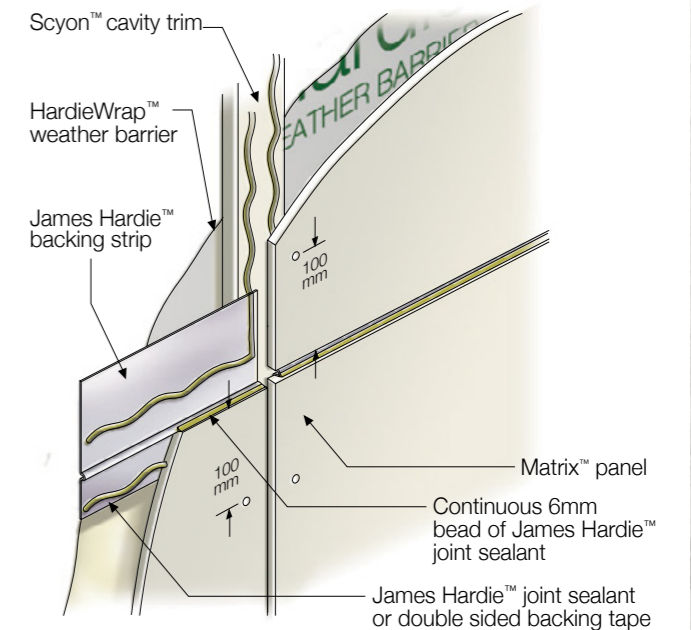

Matrix™ Cladding Range

Features and Benefits

- Create unique designs with vertical, horizontal, square or staggered layouts.
- 4 sheet sizes to facilitate design choice 1190 x 1190, 2390 x 590, 1790 x 890 and 2990 x 1190.
- Panels have a smooth sanded finish and are sealed on all sides and pre-primed for a lasting quality finish.
- Install Matrix panels over vertical Scyon fibre cement cavity battens rather than the expensive steel top hats of commercial express joint cladding systems.
- Cavity battens can be fastened with 65 x 2.8mm ring shank nails or 75 x 2.8mm D or round head smooth shank nails.
- Install onto timber or light gauge steel frames. Cavity battens can be installed on or off stud.
- Can be nailed to cavity battens using 25mm DA stainless steel brad nails (Up to N3 and C1 wind classifications).
- For bushfire prone areas: the Matrix Cladding BAL Rating is up to BAL 29. This can be upgraded to FZ with a HardieSmart boundary wall system.
- Resists damage from shrinking, swelling, cracking, rot, moisture and termites when installed and maintained correctly.
- Made in Australia for Australian conditions.
- Read the installation manual before commencing work for more details on flashing, framing, fixing, details, warranties, warnings and safe work practices.

Matrix™ cladding installation

See Installation Guide for full details.

Sizes

Product code	Length (mm)	Width (mm)	Thickness (mm)	Mass (kg/m ²)
403811	1,190	1,190	8	12.6
