

DSD/DSH & FSCD/FSCH

Solar Blinds for FS/VS/VSE/VSS Skylights

Additional colours can be ordered upon request. Contact VELUX for colour selection and lead times.

Blockout Blind

DSD for FS
DSH for VS/VSE/VSS

Colour

White on the internal side and thermostop coating on the external side.

Material

Light-tight polyester with heat resistant coating. Clear anodized aluminium side channels and top cover.

Application

- Provides light blackout
- Provides protection against heat
- "Eco" friendly – does not use electricity

Operation

Each blind comes with a radio frequency wall mounted keypad. Blinds for VSE/VSS use KLR 200 remote provided with skylight.

Performance

Reduces light by approximately 100 %
Reduces heat by approximately 40 %

Honeycomb Blind

FSCD for FS
FSCH for VS/VSE/VSS

Colour

White on both sides.

Material

Double layered pleats (polyester) form a 'honeycomb' structure. Inner faces of honeycomb structure have aluminium coating.

Application

- Adds a decorative effect
- Provides privacy
- Provides heat control
- Saves energy

Operation

Each blind comes with a radio frequency wall mounted keypad. Blinds for VSE/VSS use KLR 200 remote provided with skylight.

Performance

Reduces light by approximately 95 %
Reduces heat by approximately 60 %
