

White Primed Radiata Pine Mouldings

## PRODUCT AND PROFILE GUIDE

Operating for over 35 years, Woodhouse Timber Company is an Australian owned and operated business established and run by the Woodhouse family. Built on the foundations of quality products and excellent customer service, it has grown from its warehouse in Brisbane to a national operation with branches and representation across Australia. It is the trusted and premier wholesaler of exterior and interior timber products.

## WOODHOUSE EDGELINE

Woodhouse EdgeLine® is a range of White Primed Finger Jointed Radiata Mouldings that have been manufactured for use as a premium internal fix-out solution. A popular and competitive trade solution for domestic and commercial construction, the Woodhouse EdgeLine® range also caters for DIY project budgets, where an affordable timber moulding option is required.

We are committed to using sustainable practices and the range is manufactured from plantation Radiata pine that has been sourced from renewable resource.

Multi Coated with an Acrylic White Primer, the Woodhouse EdgeLine® range saves time and cost during installation and final finishing. The finger jointing process also means that naturally occurring defects in the wood fibre have been removed ensuring a premium finish. The use of water based adhesives and paint also ensures that there are no harmful VOC (volatile organic compound) gasses emitted.
