

# 3M™ SecureFit™ Protective Eyewear

Designed to enhance comfort and wearability through 3M™ Science of Fit™ Technology

## Self-adjusting

### 3M™ SecureFit™ Protective Eyewear Provides a New Level of Comfort & Security of Fit

3M understands how challenging it is to source and securely fit a diverse workforce with protective eyewear. As a result, 3M studied the differences in face shapes and sizes throughout the world. Digital models detailed approximately 600 different touch points on the human face that aided in the design of this innovative safety eyewear product. The result is a global game changer in comfort as 3M introduces SecureFit™ Protective Eyewear.

3M™ SecureFit™ Protective Eyewear features the proprietary self-adjusting 3M™ Pressure Diffusion Temple Technology that helps diffuse pressure over the ear to enhance frame comfort while not compromising the security of fit across a diverse workforce.

**The power to protect your world.™**

Patent pending, 3M™ Pressure Diffusion Temple Technology allows the temples to naturally adjust to individual head sizes
