Monarch Mini Fill Sand Go - Ready to Use Multi Purpose Filler

Section 1: Identification: Product identifier and chemical identity

1.1 Product identifier

Product name: Monarch Mini Fill Sand Go - Ready to Use Multi Purpose Filler
Product Code: MM-3065

1.2 Relevant identified uses of the substance or mixture and uses advised against

Identified uses: Repairing Filler / Putty
Uses advised against: Not available at this time.

1.3 Details of the supplier of the SDS

Supplier: Australian Brushware Corporation PTY LTD
Address: Level 1, 20 Council Street Hawthorn East Victoria Australia 3123
Tel: +61 3 9358 0688
Fax: +61 3 9358 0600
Email: info@austbrush.com.au

Section 2: Hazards identification

2.1 GHS Classification

Non Hazardous - Not required according to classification criteria

2.2 GHS Labelling

Signal Word: No Signal word
Hazard Statements: Non Hazardous - Not required according to classification criteria
Precautionary Statements: Non Hazardous - Not required according to classification criteria

2.3 Other Hazards

No information available

Section 3: Composition and information on ingredients

3.1 Components

Chemical Name	CAS	Weight%
Styrene-acryliclatex	25085-34-1	20-40
Fumed Silica	112945-52-5	30-50
Water	7732-18-5	20-40
Cellulose	9012-19-5	0-10

Section 4: First aid measures

4.1 Description of first aid measures

General advice:	In the case of an accident or if you feel unwell, seek medical advice immediately with this document and refer to following:
If inhaled:	If inhaled move victim to fresh air and keep in a rested position comfortable for breathing. Get medical advice/attention if you continue to feel unwell.
In case of skin contact:	In case of contact, immediately flush skin with soap and plenty of water. Remove contaminated clothing and shoes. Get medical attention if required. Wash clothing before reuse. Thoroughly clean shoes before reuse.
In case of eye contact:	Rinse cautiously with water for several minutes. Remove contact lenses if present and easy to do. Continue rinsing. If eye irritation persists, get medical advice/attention.
If swallowed:	Rinse mouth and do not swallow. If poisoning occurs, contact a Doctor or Poisons Information Centre on the details below: Australia 13 11 26; New Zealand 0800 764 766

4.2 Most important symptoms and effects, both acute and delayed

No further information available.

4.3 Protection of first-aiders

First Aid responders should pay attention to self-protection, and use the recommended personal protective equipment when the potential for exposure exists.

4.4 Notes to physician

Treat symptomatically as required.

Section 5: Firefighting measures

Fire hazard:

The product is non-flammable.

Flash point:

N/A

Suitable extinguishing media:

All

Unsuitable extinguishing media:

None

Specific hazards during firefighting:

None

Hazardous combustion products:

None

Specific extinguishing methods:

Evacuate non-essential personnel to safe area.

Protective equipment for firefighters:

In the event of fire, wear self-contained breathing apparatus. Use personal protective equipment.

Section 6: Accidental release measures

6.1 Personal precautions, protective equipment and emergency procedures

Use personal protective equipment. Keep unprotected persons away.

Follow safe handling advice and personal protective equipment recommendations.

Avoid contact with skin, eyes and inhalation of vapours.

Remove all sources of ignition.

Use personal protection recommended in Section 8.

6.2 Environmental precautions

Discharge into the environment must be avoided.

Prevent further leakage or spillage if safe to do so.

Retain and dispose of contaminated wash water.

Local authorities should be advised if significant spillages cannot be contained.

6.3 Methods and materials for containment and cleaning up

Soak up with inert absorbent material.

For large spills, provide dyking or other appropriate containment to keep material from spreading. If dyked material can be pumped, store recovered material in appropriate container.

Clean up remaining materials from spill with suitable absorbent.

Local or national regulations may apply to releases and disposal of this material, as well as those materials and items employed in the clean up of releases. You will need to determine which regulations are applicable.

6.4 Reference to other sections

See Section 7 for more information.

See section 8 for more information.

See section 13 for more information.

See section 15 for more information.

Section 7: Handling and storage

7.1 Local/Total ventilation

Use only with adequate ventilation.

7.2 Precautions for safe handling

Use only as directed on the label.

Do not swallow or get in eyes.

Handle in accordance with good hygiene and safety practice.

Keep away from water, fire, heat and oxide.

Protect from moisture.

Take care to prevent spills, waste and minimize release to the environment.

Persons susceptible to allergic reactions should not handle this product.

See Engineering measures under Section 8.

7.3 Conditions for safe storage

Keep in properly labelled containers.

Store locked up.

Store in accordance with the particular national regulations.

7.4 Materials to avoid

Strong oxidizing agents, Organic peroxides, Acids, Foodstuffs, Explosives, Heat.

Section 8: Exposure controls and personal protection

8.1 Components with workplace control parameters

Contains no substances with occupational exposure limit values.

8.2 Exposure controls

Personal protective equipment:

Respiratory protection: Use respiratory protection unless adequate local exhaust ventilation is provided or exposure assessment demonstrates that exposures are within recommended,In case of brief exposure or low pollution use respiratory filter device. In case of intensive or longer exposure use self contained respiratory protective device.

Hand protection: Choose gloves to protect hands against chemicals depending on the concentration and quantity of the hazardous substance and specific to place of work. For special applications, we recommend clarifying the resistance to chemicals of the aforementioned protective gloves with the glove manufacturer. Wash hands before breaks and at the end of workday.

Eye protection: Wear the following personal protective equipment: Safety goggles

Skin and body protection: Select appropriate protective clothing based on chemical resistance data and an assessment of the local exposure potential. Skin contact must be avoided by using impervious protective clothing (gloves, aprons, boots, etc).

Hygienic measures: Ensure that eye flushing systems and safety showers are located close to the working place. When using do not eat, drink or smoke. Wash contaminated clothing before reuse. Do not inhale gases / fumes / aerosols.

Section 9: Physical and chemical properties

9.1 Information on basic physical and chemical properties

Appearance: White paste

Odour: None

pH: 8~9

Melting point/freezing point: N/A

Boiling point/Boiling range:	N/A
Flash point:	N/A
Density:	0.4
Solubility in Water:	Soluble

Remark: These values are not intended for use in preparing specifications.

Section 10: Stability and reactivity

10.1 Reactivity

Not classified as a reactivity hazard.

10.2 Chemical stability

Stable under normal conditions.

10.3 Possibility of hazardous reactions

No further information available.

10.4 Conditions to avoid

No further information available.

10.5 Incompatible materials

No further information available.

10.6 Hazardous decomposition products

No data available.

Section 11: Toxicological information

11.1 Information on likely routes of exposure

Skin contact, Ingestion, Eye contact.

11.2 Potential Health Effects/Symptoms

Inhalation:	Cough, sneezing, nasal discharge, headache, hoarseness, and nose and throat pain.
Skin contact:	Bonds skin rapidly. Causes skin irritation,localized redness, swelling, itching, and dryness. May cause allergic skin reaction, redness, swelling, blistering, and itching.
Eye contact:	Bonds eyelids rapidly. Causes serious eye irritation,significant redness, swelling, pain, tearing, cloudy appearance of the cornea, and impaired vision.
Ingestion:	Causes gastrointestinal irritation, abdominal pain, upset stomach, nausea, vomiting and diarrhoea.

11.3 Acute toxicity

No further relevant information available.

Section 12: Ecological information

No further relevant information available.

Section 13: Disposal considerations

13.1 Disposal methods

Waste from residues:	Dispose of in accordance with local regulations.
Contaminated packaging:	Empty containers should be taken to an approved waste handling site for recycling or disposal. Do not pierce or burn, even after use.
If not otherwise specified:	Dispose of as unused product.

Section 14: Transport information

Not applicable.

Section 15: Regulatory information

Safety, health and environmental regulations/legislation specific for the substance or mixture.

Section 16: Other information

16.1 Revision Information

Date of the previous revision:	13 June 2019
Date of this revision:	12 November 2019
Revision summary:	Applied SDS information to branded template

16.2 Full text of H-Statements

No need according to classification criteria

16.3 Full text of other abbreviations

ADN	European Agreement concerning the International Carriage of Dangerous Goods by Inland Waterways
ADR	European Agreement concerning the International Carriage of Dangerous Goods by Road

vPvB	Very Persistent and Very Bioaccumulative.

16.4 Further information

Sources of key data used to compile the Safety Data Sheet:

Internal technical data, data from raw material SDSs, OECD eChem Portal search results and European Chemicals Agency, http://echa.europa.eu/

16.5 Disclaimer

The information provided in this Safety Data Sheet is correct to the best of our knowledge, information and belief at the date of its publication. The information is designed only as a guidance for safe handling, use, processing, storage, transportation, disposal and release and shall not be considered a warranty or quality specification of any type. The information provided relates only to the specific material identified at the top of this SDS and may not be valid when the SDS material is used in combination with any other materials or in any process, unless specified in the text. Material users should review the information and recommendations in the specific context of their intended manner of handling, use, processing and storage, including an assessment of the appropriateness of the SDS material in the user's end product, if applicable.
