

FIBREGLASS & FOAMS

Diggers Fibreglass Roller

DESCRIPTION

Digger Fibreglass Roller is a metal roller used to remove air bubbles in fibreglass repairs.

TYPICAL USES

- To squeeze out air bubbles in fibreglass matting, cloth and strips

FEATURES

- Metal – smooth and durable
- Simple and cost-effective

APPLICATION

When using resin make sure that every part of the fibreglass is 'wet out' thoroughly and that there are no white spots. This will greatly enhance the finished surface.

Allow to saturate and use a roller to squeeze the air out of the fibres.
