 finish and mechanical
 warranty + 2 years
 electronics warranty and
 LIFETIME technical
 support.

Video Monitoring and Recording:

Know who's at your door with Live View camera streaming real-time high-resolution video to your smartphone. Recordings can be stored locally and/or in the cloud.

Greet Guests with 2-Way Audio:

Homeowners can have real-time conversations with anyone who is at the door all from the convenience of their smartphone.

Grant Access. Even when you're not home:

Remotely lock and unlock your door from anywhere using the Lockly app.

Create eKeys for Friends and Family:

Grant one-time use or specific time duration access by issuing codes or digital eKeys remotely via a mobile device.

Mobile App and Voice Control:

Unlock, lock, or check door status through Lockly's smartphone app, or by simply using your voice through Alexa, Google Assistant and Siri.

Your Finger is Your Key:

Lockly's 3D Biometric fingerprint sensor is unlike other optical readers that can often times be faked through images.

Peek-Proof Digital Keypad:

Patented PIN Genie[®] touchscreen prevents codes from being guessed by randomly shuffling PIN number locations.

Real-time Control, Monitoring and Status:

Vision is the only lock in the world that can monitor open/closed door status in real-time and alert you on your smartphone.

Offline Access Codes[™] :

Generate multiple access codes that can be provided for one time or time specific use to guest or anyone needing access. No need for them to download an app. Codes work offline without Wi-Fi and expire once used.
