

Petrol Lawn Mower Quick Start Guide

RLM46175Y

⚠ WARNING: This Quick Start Guide is not a substitute for reading the operator's manual. To reduce the risk of injury, the user must read and understand the operator's manual before using the product.

TO START A COLD ENGINE:

-  **1**  Install the grass catcher, mulching plug, or side discharge door.
-  **2**  Fill the fuel tank with unleaded petrol (91 or higher).
Note: Use fresh fuel.
-  **3**  Add SAE 10W-30 API-SJ or higher weight engine oil (0.5 L) in the engine sump.
-  **4**  Turn the fuel tap to the "Open" position.
-  **5**  Check and ensure the air filter is clean and free from dust before starting the product.
-  **6**  Set the throttle lever to the "Start/Run" position.
-  **7**  Firmly push the primer bulb 3 times.
Note: Priming the engine may not be necessary when restarting a warm engine.
-  **8**  Pull the starter grip up to 2 times. Once the engine starts, release the starter grip slowly so that the rope does not snap back.

TO STOP THE PRODUCT:

-   Set the throttle lever to "Stop" position.
