

# TILE GROUT COLOURANT

## Directions

- 1/ Ensure you prepare the surface, as the better the preparation the better the job. Remove any loose grout and re-grout those areas.
- 2/ Clean Grout lines with a tile grout cleaner or similar cleaner that will not leave residue. All soap scum must be removed.
- 3/ Shake Bottle well with cap on for at least 1 minute.
- 4/ Decant a portion of the colourant into a container & load up with a foam applicator or a small paint brush.
- 5/ Spread over the grout joint leaving as little as possible on the surface of the tile.
- 6/ Allow 30-45 minutes to dry.
- 7/ Wipe excess off tiles approximately 45 minutes after applying or when touch dry with a damp cloth or sponge, do not apply excessive pressure or use abrasive pads to clean excess on grout line.
- 8/ Polish the tiles with dry cloth or paper towels and allow to dry before use.
- 9/ Dark Coloured Grout lines or excessively discoloured grout lines may need 2 coats.

# PRE-MIXED TILE GROUT

Red Devil Pre-Mixed Tile Grout is an acrylic based white grout formulated for use on ceramic and mosaic tile. It is a unique grouting composition that provides professional quality with do-it-yourself ease and is formulated to a user-friendly consistency for improved durability.

## Adheres To:
