ECO-FRIENDLY

SOIL MATTERS

CLAY & COMPOST

PERMANENTLY IMPROVES SANDY SOIL

An all-in-one premium soil conditioner for permanent amendment of sandy, hydrophobic soils. It contains Soil Solver Clay Plus (kaolin clay, silts and rock minerals) and mature compost to increase soil capacity to hold nutrients and water and naturally regenerate soil fertility. The premium ingredients create a loam like soil texture that will grow a lush, healthy garden that is easier to maintain.

Baileys Soil Matters Clay & Compost is the ideal soil preparation product for new lawns, gardens and vegetable beds based on sandy soil.

- ✓ Improves Fertility and nutrient holding capacity
- ✓ Improves Soil Biology
- ✓ Cures Water Repellency
- ✓ Needs Less Watering
