

OIL PRODUCTS

Diggers Raw Linseed Oil

DESCRIPTION

Diggers Raw Linseed Oil is 100% NATURAL oil obtained by pressing seeds of the flax plant.

TYPICAL USES

- Timber sealer and protector
- Outdoor timber fences/gazebos
- Outdoor furniture oil
- Untreated cricket bats
- Not suitable for sealed/finished timber surfaces

FEATURES

- 100% Raw Linseed Oil
- Longest drying time
- Creates a finish that is generally impervious to water, heat, scratches and most stains
- Light stain on pale woods

APPLICATION

1. Clean and dry surface. Mix **Diggers Raw Linseed Oil** 50:50 with **Diggers Mineral Turpentine** for increased timber protection.
2. Apply two coats with a brush, roller or spray gun. **Diggers Raw Linseed Oil** is the longest drying linseed oil and should be applied in very thin coats and rubbed well into the wood. It is important to allow drying time between coats. Clean excess oil with a clean lint free cloth to avoid the surface drying sticky.

How does Linseed Oil work? *When linseed oil is applied to a porous surface it fills the pores and as it is exposed to the air it gels to form a protective film. The film is generally impervious to water, heat, scratches and most stains.*

NOTE: Soak rags in water as spontaneous ignition may occur on drying. Dispose of rags by controlled incineration or at an approved landfill.

SAFETY

Wear suitable protective clothing, gloves and eye/face protection when using this product.

Typical Characteristics

Appearancegolden-brown
viscous fluid
Specific Gravity..... 0.92
Flash Point..... 150°C
Auto Ignition Point.....350°C
