

DECINA

DISCOVER INDULGENCE

INTRODUCING DECINA

Indulge your senses with the ultimate in quality and design from Australia's largest manufacturer of baths, spa baths and showers, since 1989.

WHY BUY DECINA?

- Decina has made over one million baths in our Queensland factory since 1989 and is 100% Australian owned.
- Decina is Australia's first choice in bathroom products when it comes to quality and value.
- All of Decina's products comply with stringent Australian Standards giving you peace of mind.
- Decina uses premium sanitary grade acrylic for superior gloss, scratch and chemical resistance, guaranteed colourfastness with easy to clean surfaces.
- All of Decina's bath rims contain steel rods for extra strength while the bath bases are double reinforced with timber and fibreglass for sturdiness and durability providing greater safety when entering and exiting the bath.
- Australia's leading retailers recommend and award Decina for exceptional after sales service, product quality and value.

STANDARDS OF EXCELLENCE

Every Decina product is manufactured to Australian Standards so you can be assured our products are consistently safe and reliable.

Decina's design and manufacturing team are experts in acrylic bath and spa bath technology with decades of experience.

This combination of skill, quality material and rigorous testing, sets Decina apart from our rivals.

Every product is backed with the longest warranty in the market to give you the best possible value and product performance available.

When you choose Decina, you join leading Architects, Designers and Builders who continue to select Decina as their No# 1 choice for hundreds of prestigious projects across Australia and overseas.

SHOWER COLLECTION

Decina's Shower collection is recognised as offering the best value and quality range of products designed to meet all needs and budgets.

Decina presents two different types of shower screens, semi-frameless and frameless. Both a full two metres high and made with toughened glass.

All screens feature an easy install gasket wall system and the wall channels have caps making the screens easy to clean. The screen doors feature the drip-less strip across the bottom and close with magnetic seals.

The seals and strips are anti-fungal and UV resistant meaning they will look new for longer.

Most of Decina's shower screens are coated with Decina's unique EZI Clean premium screen protection which reduces screen cleaning time.

Decina's shower screens come with a five year warranty and stamped with an Australian/ New Zealand safety compliance number.

Introducing the Shower Collection

Decina's semi-frameless and frameless shower screens and doors can be installed in tiled and non-tiled shower floors and wall applications. Decina's leak resistant acrylic shower base and one piece, seamless acrylic wall are ideal for simple and cost effective home renovations and reduce mould growth, preventing the costly maintenance associated with a tiled shower area.

Decina's shower bases are made from high gloss, premium Sanitary Grade acrylic and are reinforced with a steel rod and capped with ABS plastic, making them incredibly stable, functional and long-lasting.

Decina presents a number of different shower screen installation solutions to suit your every need.

Tiled floor & wall installation

Shower screen can be installed straight onto a tiled wall & floor.

Tiled wall & acrylic shower base installation

Shower screen can be installed on an acrylic shower base and a tiled wall.

Acrylic shower wall & base installation

Shower screens can be purchased as a complete shower system and installed on an acrylic base and wall.

Shower panel installation

Shower panels are designed to fit straight onto a tiled floor or a Luna shower base.

M Series

Shower Panel

The ultimate in bathroom luxury and design, the M Series Shower Panel presents two great designs – freestanding; supported by two chrome braces so it can be placed anywhere in the bathroom or the wall-fixed panel which sits up against a wall and is available in three different sizes.

The M-Series shower panels feature 10mm toughened glass and comprehensive stylish fixing mechanisms.

- EZI Clean coating
- Easy to install
- Concealed fixtures
- Corrosion resistant fittings and fixtures
- 10mm toughened glass
- Designed to fit straight onto a tiled floor or Luna shower base
- Available in chrome

Freestanding M Series Panel

Wall Fix M Series Panel

Lavano

Curved Sliding Shower Screen/System

Decina understands the need for space saving in small bathrooms. The Lavano is the perfect solution!

The clever single centered sliding door glides on a sleek aluminum frame without interrupting valuable bathroom space. At two metres high, the Lavano Curved shower offers a generous internal shower space.

The easy access points to these shower enclosures are designed to create room for a basin, toilet and/or storage to be located on either side without normal door opening obstruction. Even the smallest bathrooms can become a spacious haven for bathing, well-being and rejuvenation.

SPECIFICATIONS

Exact Screen Size (mm) (w) x (d) x (h)

1000 x 1000 x 2000

Shower System with Wall & Base (mm)

1000 x 1000 x 2000

Screens are adjustable at the wall to a further + 8mm from sizes above

Lavano screen installed on a tiled floor and wall.

Features

- Easy to clean with exclusive EZI Clean Coating
- Easy to install
- Reversible sliding door can be installed for left or right hand entry
- Concealed fixtures
- Corrosion resistant fittings and fixtures
- 6mm toughened safety glass
- Designed to fit a Luna curved shower base or straight onto a tiled base
- Door rollers and brackets vigorously tested for strength and durability
- Steel chrome features

Lavanos shower system (includes shower wall & curved Luna base)

Floriano

Curved Sliding Shower Screen/System

At two metres high, with a one metre radius, the Floriano curved sliding shower screen offers generous internal shower space while maximising the functional areas of your bathroom. This is achieved with the 6mm toughened glass single sliding door. The clever curved design can be installed for left or right hand entry and creates more room for the basin, toilet and/or storage facilities, without any obstruction. Even the smallest bathrooms can become a beautiful, functional bathing space.

SPECIFICATIONS

Exact Screen Size (mm) (w) x (d) x (h)

Floriano Screen with Luna Base

Features

- Reversible sliding door can be installed for left or right hand entry
- 6mm toughened safety glass
- Designed to fit the Decina Luna curved shower base or tiled floor
- Steel chrome fittings

Malanda

Sliding Shower Screen/System

The Malanda sliding door shower enclosure stands at an impressive two metres high with premium 8mm thick toughened glass. The reversible sliding door features a soft magnetic close door system which provides a silent and ultra-smooth running door action. Its minimalist styling, with round roller design is perfectly suited to match round bathroom accessories. Its stainless steel interior/exterior door handle and bright aluminum silver frame come together to create a truly luxurious design.

SPECIFICATIONS

Cascade Showers

Semi-Frameless Pivot Panel Screen/ System

Unlike most shower screens in this category, the Cascade range features a semi-frameless, two metres high, 6mm toughened glass shower screen which, combined with our Luna shower base and wall creates a flawless and attractive shower area for your bathroom.

For versatility, the Cascade screens can be installed on tiled floors and walls or on our Luna acrylic shower base with a tiled wall or as a complete acrylic shower system.

All combinations offer affordable quality, flexibility and contemporary style.

Flawless in design and functionality the Cascade features:

- An easy install gasket to wall system (no pop rivets required)
- Wall channel finishing caps for easy cleaning
- Magnetic door seal and drip strips to avoid leaks
- UV resistant door seals
- All seals are anti-fungal
- All fittings are chrome steel, not plastic
- 6mm toughened safety glass
- Doors can be reversed to open left or right
- Easy to clean with EZI Clean coating

Cascade Pivot Panel for Baths

The Cascade Pivot Panel is perfect for any shower over bath application and is a smart solution for smaller bathrooms. It can be fitted on virtually all Decina's rectangular baths or spa baths that have a tile bead.

The simplicity of the 6mm toughened glass screen, opens up the bathroom space, which complements the design aspects of your bathroom by being unobtrusive.

Features

- Invisible channel brackets (all fixings are on the inside of the channel) create clean lines and a seamless finish
- Panel swings through 180 degrees
- Drip seal to bath
- 6mm toughened safety glass
- Available in Chrome or White
- Optional Towel Rail available - Chrome only
- EZI Clean screen coating

1500 x 790

Cascade Pivot Panel with optional Towel Rail

Sizes (mm) (l) x (h)

Fixed Panel: 530 x 1500

Overall Size: 1037 x 1500

Swing Panel: 485 x 1500

(Both panels with frame fittings)

Cascade Fixed and Swing Pivot Panel for Baths

The Cascade Fixed and Swing Pivot Panel provides a shower enclosure of over one metre long. Installed directly onto a tile bead the chrome plated pivot panel provides a seamless look while providing effortless access to the bath and taps. The chrome plated handle prevents finger print marks on the glass.

The 6mm toughened glass swing panel, stays aligned with the bath edge and can be rotated up to 270 degrees in or out and fold all the way in for easy access, making it especially easy for bathing children.

The gasket sealed walled channel allows ± 8 mm adjustability for precise installation.

Features

- Invisible channel brackets (all fixings are on the inside of the channel) creates clean lines and a seamless finish
- Swing panel rotates 270 degrees
- Drip seal to bath
- 6mm toughened glass
- EZI Clean screen coating

Shower Wall Collection

Manufactured in Australia, Decina's shower walls are ideal for shower areas where easy maintenance is a priority. Decina's shower walls are made to Australian Standards from 2mm coextruded ABS acrylic, reduce mould growth and the maintenance associated with grouting in a tiled shower area.

BATHING COLLECTION

A bath is your island away from the world where you can relax and indulge your senses in total comfort.

Our designers have understood the need for a bath or spa bath to be both stylish and functional. With over twenty seven years' experience Decina's designers have created excellent worldwide designs based on bath depth and lumbar support. These features enable you to fully recline under water whilst gaining that perfect back support for a most relaxing and comfortable experience.

That's why leading designers choose Decina!

Decina's Bath Collection

Decina's beautifully designed baths are moulded from a premium sanitary grade acrylic sheet and tested to Australian Standards AS/NZS 2023:1995. This means that Decina's baths are easy to clean, scratch and chemical resistant, robust and ergonomically comfortable.

The bath rims are enclosed with a steel rod for extra strength while bath bases are double reinforced with a timber and fibreglass resin for sturdiness and durability, providing greater strength and safety when entering and exiting the bath.

Decina offers long warranties of up to 15 years on their acrylic bathing range and provides the innovative EZI Frame on certain models for quick and easy installation.

Accessories for your bathing requirements include headrests for additional comfort.

Decina strives to bring Australia the latest in international design and innovation where cold, uncomfortable and thermally inefficient baths are a thing of the past.

Decina's Spa Bath Collection

Why pay to go to an expensive commercial spa centre when you can invest in your wellbeing and enjoy all the therapeutic benefits in the privacy and comfort of your own home.

Decina have been the innovators in spa bath design for over twenty seven years. We were first to introduce the quietest spa bath pumps with inbuilt heaters that maintain the warmth of the water.

Our powerful jets that double the aeration of the bubbles to invigorate the body and are designed to be visually pleasing and ergonomically comfortable, easy to clean, with trims that will retain their appealing look for years to come.

All jets are adjustable for water flow and aeration to create the intensity that suits your body. As the water passes through the jets a vortex action occurs which sucks the air from the air water mixture controls to create a stronger massage action on the body. When the air controls are turned down or off, only water passes through the jets for a soft massage action.

Our designers have continued to evolve the whirlpool system with a range of flush profile fittings and below rim air water/ mixture controls for a beautiful minimalist finish.

Experience the luxurious bathing sensation as you immerse into a whirlpool of style and comfort as your body is being massaged by thousands of soothing air bubbles that relieve tired muscles.

SPA BATH COLLECTION

Santai Spa Baths ●

The Santai Spa Baths 'Mod Jets' are designed for a relaxing massage action, are adjustable for water and airflow and are configured to create water movement towards and around the body. The 800 Watt energy efficient tri-flo pumps are whisper quiet and reuse the heat generated by the pump motor to maintain water temperature. The slim on/off Mod Power Button and Mod Air Controls are mounted on the bath rim.

Contour Spa Baths ●●

The Contour Spa Baths, minimalistic 'C-Lenda™' jets' have been designed and strategically placed on the long side of the bath to maximize the massaging effect and soothe tension. While the lumbar jets provide relief for the lower back and hips while the foot massage jets gives reflexology benefits. The more powerful 1000 Watt pump comprises of a three-stage heating element that reuses energy to boost water heat and includes the added 'no water' and 'auto reset' protection. The electronic Sensa Touch pad control is mounted on the bath rim and soft pillow headrests are included.

Dolce Vita Mood Baths ●●●

Our premium spa bath range Dolce Vita, includes the innovative Hydrotherapy Jet System and Chromotherapy lighting, both of which has redefined the aesthetics of spa baths. The Chromotherapy holistic light remedial method uses the visible spectrum (seven colours) of electromagnetic radiation to heal the body and boost energy. The 'mood lighting' controller mounted on the bath rim gives you complete control over the colours and their brightness.

The larger capacity flush 'C-Lenda™ maxi jets' and mini jets' have been added to create a swirling action for the ultimate body massage enjoyment. The powerful 1500 Watt pump includes a one stage heating element, with energy boosting recycling and a 'no water' and 'auto reset' protection. The soft pillow headrest makes Dolce Vita synonymous with spa bath luxury.

Bambino

The Bambino provides excellent value for home renovations with its ultra-functional space saving design. Molded arm rests sweep around from the shoulder position to provide comfort and a lumbar support cradles the back. The Bambino is only 380mm in depth and has a slip-resistant pattern on the base of the entry/exit points for safety. The Bambino has self-supporting feet for ease of installation.

Spa Bath Components

Components		Description	Santai	Contour	Dolce Vita
Mod Power Button		Pressurised air button operates the spa pump on/off	✓	-	-
Mod Air Control		Regulates air flow to the jet system	✓	-	-
Mod Mini Jet		Designed to provide a concentrated massage in the body and feet areas.	✓	-	-
Mod Centro Jet		Designed to circulate air and water flow from the sidewalls of the spa. Adjusting the eyeball of the jet up, down or sideways can alters the direction of the water	✓	-	-
Mod Suction		Draws water from the spa back to the pump for recirculation. Designed with total safety in mind, this suction has a unique built-in feature that disengages the water pressure within seconds of being activated.	✓	-	-
C-Lenda™™ Flush Mini Jet		Specifically positioned to provide a concentrated massage to the body and feet areas.	-	✓	✓
C-Lenda™™ Flush Centro Jet		Designed to circulate air and water flow from the sidewalls of the spa. Adjusting the eyeball of the jet up, down or sideways can alters the direction of the water	-	✓	-
C-Lenda™™ Flush Swirl Jet		Designed for the massaging the lower back and hips of the body. The water pressure rotates the eye of the jet to produce a swirling action delivering a soothing deep tissue massage	-	-	✓
C-Lenda™™ Flush Maxi Jet with LED Mood lights		Delivers an increased air and water flow by adjusting the eyeball of the jet up, down or sideways can alter the direction of the water. LED multi-coloured mood lighting is built into the jets.	-	-	✓
C-Lenda™™ Flush Suction		Draws water from the spa bath back to the pump for recirculation. Designed with total safety in mind, this suction has a unique built-in feature that disengages the water pressure within seconds of being activated.	-	✓	✓
C-Lenda™™ Flush Air Control		Regulates airflow to the jet system.	-	✓	✓

Components		Description	Santai	Contour	Dolce Vita
Mood Lighting Touch Pad		Operates the mood lighting and allows you to change between 7 different colours and adjust the brightness, depending on your mood.	-	-	✓
Dolce Vita Spa Key		Operates the the Dolce Vita Spa hydro system and heater element from anywhere in the bathroom. Includes a rolling code to avoid interfering with other sensor devices and is water resistant.	-	-	✓
Contour Sensa Touch Pad		Provides on/off function and three-stage heat control element	-	✓	-
Santai Auto Heat Boost Pump		Operated by the Mod power button mounted on the rim of the bath. The 800 Watt pump incorporates TriFlo's unique back plate design that allows the heat generated by the motor to be transferred into the water to help maintain the water temperature. Note: The element is not designed to heat cold water.	✓	-	-
Xtra-Heat Boost Pump		The Xtra Heat boost pump is an upgrade to the Auto-heat boost pump. Its heat element is activated when the pump is turned on. Operated by the pneumatic Mod power button mounted on the bath rim it is designed to maintain water heat, ideal for use over lengthy periods of bathing or colder climates. The element remains on while the pump is active and can only be disengaged when the pump is switched off. Note: The element is not designed to heat cold water.	optional	-	-
Contour Sensa-Touch Pad Heat Boost Pump		The three-stage heat control touch pad located on the rim of the spa bath provides the ideal temperature control via the more powerful 1000 Watt Heat Boost pump. Note: The element is not designed to heat cold water Note: The element is not designed to heat cold water.	optional	✓	-
Dolce Vita Spa Key Pump		Clean uninterrupted rim design is provided by the Remote Spa Key controller that operates the heat boost pump which includes a one stage on/off heating element. The powerful 1500 Watt pump maximises water flow to the increased number of spa jets Note: The element is not designed to heat cold water.	-	-	✓
Overflow		The Overflow outlet is positioned near the top inside edge of the bath or spa bath and designed to take any excess water back to the waste. Note: To elevate the bath an optional EZI Frame or base support frame (standard on Dolce Vita Spa Baths) must be used (not suitable for shower over bath installation)	optional	optional	optional
Headrest Fiore		Elegant straight soft pillow headrest	optional	✓	✓
Headrest Sienna		Elegant curved soft pillow headrest	optional	✓	✓

Made to Order

Your exclusive Decina spa bath is a “made to order” item. Please allow 10 working days for completion and dispatch. When ordering your spa bath from either your builder or retailer you’ll need to specify the model and size of spa, the pump location, your choice of fittings and any other options you wish to purchase.

It is advisable to double check with your builder or retailer that your order form has been completed correctly to avoid any delays.

SHOWER BATH COLLECTION

Bella

Many houses require a shower base that can double as a small bath at the same time be easily accessible for the older or infirm. The Bella is water efficient, has a slip resistant surface and is compact size.

Key Features

- Inset bath with tile bead
- Water efficient, space saving design
- Easy to clean and maintain
- Slip resistant base
- Premium sanitary grade acrylic
- Centre waste

Size (mm):

910 x 910 x 335 – 69 litres

 Made in Australia

Azzuro

The Azzurro shower bath is an ideal bath/shower bath for a small area where space is limited. Water efficient and designed for space saving with a ledge for shower products. It features a slip resistant base and is useful for bathing small children.

Key Features

- Inset bath with tile bead
- Premium sanitary grade acrylic
- Slip resistant base
- Water efficient, space saving design

Size (mm):

1200 x 820 x 425mm – 116 litres

 Made in Australia

PRESSED METAL BATH COLLECTION

Decina's range of pressed metal baths, provide a stylish, durable and good value alternative to our acrylic baths. Designed as an Island style bath or an Inset bath, the exclusive, supplied tile bead strip allows the bath to be placed directly up against a tiled wall. The gleaming white enamel surface is non-porous, scratch resistant and does not absorb dirt, making it extremely easy to clean.

Available in two sizes the Giorgia is perfect for smaller bathrooms and the Stella more suitable for bathers who desire a wider and more spacious bath.

Giorgia

1500 x 750 x 390 - 85 litres

1700 x 750 x 390 - 95 litres

Key Features

- Inset bath or Island style bath
- Optional tile bead strip
- Manufactured from white enamel steel

FREESTANDING BATHS & SPA BATHS

Piccolo Freestanding Bath

Freestanding baths are the latest modern, bathroom innovation and, Decina leads the way with the latest European inspired designs.

Freestanding baths provide a real focal point in any size bathroom, with no limitations on where they are placed. Easy to install, they do not require a hob, frame or any additional tiling and are equally suited to being showcased in the centre of a large bathroom or in smaller bathrooms, where they can be placed up against the wall.

Decina's beautifully designed freestanding baths are made from a two-piece moulded body where the meticulous manufacturing technique provides a seamless appearance.

Unlike most competitors Decina's freestanding baths are made to Australian standards from premium sanitary grade acrylic, giving a high gloss finish and scratch resistance. Decina's freestanding baths are made to last and supported with a ten year warranty, to give you a long lasting luxury, bathing experience.

Hilton

High sloping backs with elegant thin lip to accommodate two bathers.

Size (mm) *l* x *w* x *h*

1800 x 800 x 660 – 126 litres

Elinea

This classic oval shape with minimalist clean lines and an ultra thin lip around the bath is timeless in design. The Elinea features generous reclining lumbar areas at both ends to accommodate two bathers.

Sizes (mm) (l) x (w) x (h)

1500 x 750 x 565 – 150 litres

1780 x 800 x 540 – 200 litres

Kolora

Sophistication and elegance this black and white bath is guaranteed to be the masterpiece in your bathroom.

Sizes (mm) (l) x (w) x (h)

1645 x 790 x 580 – 144 litres | 1775 x 800 x 580 – 155 litres

Westin

Designed with soft radii, generous lumbar areas and angled returns that allow the bath to be showcased in smaller bathrooms.

Sizes (mm) (l) x (w) x (h)

1710 x 830 x 580 - 180 litres

Sarto

The traditional Clawfoot bath has continued to be popular in many parts of Australia in federation homes. Now Decina offers a solution that unlike its heavy metal predecessors is warm to the touch.

Size (mm) (l) x (w) x (h)

1750 x 730 x 750 - 145 litres

Sheraton

Designed specifically for smaller bathrooms, the Sheraton freestanding offers generous internal bathing room for its size and displays the sophistication and opulence of much larger baths.

Size (mm) *(l) x (w) x (h)*

1600 x 750 x 595 - 125 litres

Piccolo

With its high reclining end and ultra-thin edges, this striking addition will be the focal point in smaller bathrooms. Deceptively spacious the Piccolo is sure to create a lavish, comfortable bathing experience.

Size (mm) *(l) x (w) x (h)*

1500 x 740 x 700 - 127 litres

Cool

This classic oval shape with minimalist clean lines is timeless in design and features generous reclining lumbar areas at both ends to accommodate two bathers. The Cool features a levelling frame with adjustable legs.

Sizes (mm) (l) x (w) x (h)

1500 x 750 x 545 - 140 litres

1790 x 790 x 580 - 155 litres

BACK TO WALL FREESTANDING BATHS

Alegra

The Alegra freestanding back-to-wall bath with beautiful curved edges, features a tile bead so it can be built into the wall or sit against the wall.

Sizes (mm) *(l) x (w) x (h)*

1500 x 800 x 600 - 162 litres

1700 x 800 x 600 - 175 litres

Aria

The Aria back-to-wall rectangular freestanding bath features gentle reclining back rests and offers the practicalities of a tile bead, so it can be integrated into a tiled wall if space is at a premium.

Sizes (mm) *(l) x (w) x (h)*

1500 x 800 x 610 - 182 litres

1700 x 800 x 580 - 201 litres

FREESTANDING SPA BATHS

Orion Dolce Vita

Orion

The Orion is one of the few freestanding baths that can be converted to a spa bath. The removable side panels allow for the spa system to be implemented. With its clever design the pump can be located under the bath sides allowing the Orion to be located anywhere in the bathroom or ensuite. Ideal as a relaxing spa bath for dual bathing.

Sizes (mm) (l) x (w) x (h)

1570 x 575 x 605 (height adjustable) - 261 litres

BENEFITS OF THE EZI FRAME BATH SUPPORT

In line with our tradition of being innovators in the bathing market, Decina is proud to offer the exclusive 'EZI Frame' bath support frame. The EZI Frame is a structural on site fitting for specific baths and spa baths that eliminates the need for further support. The steel support frame contains adjustable legs that can be fitted under the bath on site.

The benefits of using the EZI Frame is that it eliminates the use of on-site scrap, timber, bricks or foam under the bath which will void the Decina warranty and not structurally support the bath when filled with water and bathers.

Decina recommends only two support methods; the use of a full mortar bed or an EZI frame steel support frame.

The EZI Frame can be pre-fitted or post fitted and is glued to the bottom of the bath with construction adhesive. Once fitted the legs are simply screwed down to touch the sub floor.

Full installation instructions are provided with all EZI Frames.

Features:

- EZI Frame (small) for rectangle end waste 1500mm bath
- EZI Frame (large) for rectangle end waste 16/17/1800mm baths
- EZI Frame for centre waste baths
- Low cost and easy to install
- Time saving for onsite installation
- Structural support and protected by warranty
- Adjustable from 55mm to 170mm with lock nuts provided
- Available from your builder or retailer

SPA PUMP POSITIONS

In order for us to build your own spa bath we ask that you to nominate your choice of pump position (see below). The pump has to be accessible for maintenance and can be located in a number of areas.

1. Either under the bath rim (with access through the wall from the outside or adjoining room)
2. Taken through and fixed to an external wall housed in an adjoining room or cupboard or within the tiled hob of the bath enclosure.

For optimum performance the pump should be no more than 1.2m from the spa with no direction changes. The external pump positions of AX, AY, BX, BY, CX, CY, DX, DY are outside the perimeter of the bath. Therefore the pipework finishes flush with the edge of the bath and we supply 300mm of pipework, loose couplings and the barrel unions so the final connection can be completed on site.

Should you wish to locate the pump more than this distance away from the spa, please nominate the length of extension pipework required (max 1.2m recommended).

It is important that the height of the pump should be at the same level as our finished pipework.

All spa pumps are factory water tested and supplied with the relevant pipework including the barrel union connections. The height of the pump is established in the factory to ensure the system will prime and self waste.

DECINA WARRANTIES

These extended warranties only apply to faults or defects which have arisen solely from faulty materials or workmanship in the Products and does not apply to other defects which may have arisen as a result of, without limitation, the following: accidental damage, installation damage, installation that does not follow the companies recommendations, abuse, misuse, maltreatment, abnormal stress or strain, harsh or adverse weather conditions, including excessive water temperature, or neglect of any kind of the Products. Any changes to the Product as supplied. Repairs of the Products other than by a Decina accredited or licensed service agent or technician are not covered. This extended warranty for the Products commences from date of purchase.

In addition to this extended warranty, certain legislation (including the ACL) may give you certain rights which cannot be excluded, restricted or modified, this extended warranty must be read subject to such legislation and nothing in this warranty has the effect of excluding, restricting or modifying those rights.

To make a warranty claim, the following documentation must be posted, faxed or emailed to Decina Bathroomware Pty Ltd:

- Proof of purchase (original invoice from the supplier)
- Details of the warranty claim including the date of installation, installers details and head contractors details, the date the issue has been found
- Your contact details

If the Product has not been installed, please contact Decina for their authorised agent to inspect the Product. If the claim is accepted the Product can be returned with the Proof of Purchase (POP), to the place of purchase or Decina will arrange a collection and replacement. Note: The extended warranty only applies to the original owner and is not transferable.

Should any warranty claim be made and attended to by a Decina authorised Service Agent and that in the opinion of the Service Agent or Decina, the problem was from faulty installation or use of the Products in conjunction with Products of another manufacturer or from some other cause other than a manufacturing defect of the goods for which Decina is responsible. Decina Bathroomware Pty Ltd reserves the right to charge a service fee for each service staff attending the premises where Products have been installed.

As part of Decina's commitment to continuous improvement, Decina reserves the right to make changes to its Product at any time.

Our goods come with guarantees that cannot be excluded in the Australian Consumer Law. You are entitled to a replacement or refund for a major failure and for compensation for any other reasonably foreseeable loss or damage. You are also entitled to have goods repaired or replaced if the goods fail to be of acceptable quality and the failure does not amount to a major failure.

Note – The Warranties above apply only to products shown in this catalogue. Other products manufactured by Decina may have different warranty arrangements

Includes spa bath overflows, wastes and headrests.*

*Warranty terms and conditions apply. For more information visit decina.com.au or call 1300 332 462.

Decina is marketed and distributed by Decina Pty Limited ABN 39845 084 033 trading as Decina. In some cases, Decina uses computer-generated imagery (CGI) to provide graphical representations of our products where actual photos are not available. The products featured within all Decina imagery are as close to the Decina range as CGI, photographic lighting and our printing processes allow. Different camera angles, although not designed to be misleading, can sometimes distort actual size and distances. Please obtain a copy of the terms and conditions of the applicable warranties from decina.com.au. All warranties are in addition to any rights that may exist under the Australian Consumer Law. Information provided in this catalogue is representative of the actual product available at the time and date of printing September 2016. All dimensions listed in this catalogue are indicative and may vary by up to 6mm +/- We strongly recommend that installation only commences after the bath/spa bath has been delivered. All bath litres shown are measured from 200mm below the bath rim. Taps, overflows and wastes are not included, unless otherwise stated.
