

An outdoor entertaining appliance like no other, IXL Fresco Aurora combines ambient infrared heat, task lighting and mood lighting in one stylishly designed unit. Each function can be effortlessly controlled via an optional remote control or a free app available to download from the iTunes App Store or Google Play. Designed to be suspended from flat or gabled roofs, IXL Fresco Aurora is ideal for external dining areas, verandas and balconies and will transform your outdoors into a cosy, ambient space - all year round.
