90mm to 90mm

Measure 420mm

you can bend it . . . bend it again . . . even twist it . . .

Easy to assemble and use.

Fits to most standard pipes.

Tough and durable.

Icon Plastics introduces the "PLUMBER'S ELBO". It's unique design allows it to twist and bend where other standard connections can't follow. With both male and female ends, the Plumber's Elbo is the ideal product that meets the simple needs of the D.I.Y. installer yet expands its capabilities to the professional plumber. The *Plumber's Elbo* fits most standard down pipes, including 100 x 50mm & 100 x 65mm Rectangular and 90mm Round downpipe. Fixing is simple; use suitable pop rivets or screws to secure in place.
