

# WOOD HARDENER

• Pre-mixed • Water-based • Non Toxic

## Restores Timber Like New! Save on costly replacements

Earl's® Wood Hardener penetrates into soft rotted wood fibres, restoring them to near original strength. This means you can repair even the most damaged wood, ready for full restoration.

**Before**

**After\***

\* Area shown has been treated with Earl's® Wood Hardener and then filled with Earl's® Powder Putty and painted.

### Ideal for interior and exterior jobs

Furniture, fences, decking, posts, window sills and sashes - the list is endless. **Earl's® Wood Hardener** will save you hundreds of dollars on replacements.

### Pre-mixed and ready to apply

**Earl's® Wood Hardener** comes pre-mixed and ready to apply.

### Water based - safe and friendly

Modern technology has allowed the development of a water-based consolidant that is also non-toxic once cured and completely safe to use around the home.

### Long shelf life

**Earl's® Wood Hardener** has a shelf life in excess of two years. Always use in temperatures above 7°C.

**NON  
TOXIC**

### Use Earl's® Wood Hardener on

- Fences
- Window sill/sashes
- Door Frames
- Panelling
- Furniture
- Decorative beams
- Weatherboards
- Playground equipment
- Posts
- Fence Palings
- Outdoor tables/chairs
- Decks

### Easy to Apply

Ensure area to be treated is dry, free of dirt, dust or grease and remove loose paint, varnish or flaky wood. Generously apply Earl's Wood Hardener by pouring, spraying, brushing or sponging onto area to be restored. Repeatedly saturate the rotted wood fibres to enable the deepest possible penetration. Let cure until solid and not tacky to the touch. Multiple treatments might be needed on extremely soft wood.

*Earl's® Wood Hardener should be considered a non-structural wood hardener.*

For more safety information, please read directions and safety instructions on the product's label before use.
