

Bloom Laundry Cabinets

Congratulations on the purchase of your new Bloom Laundry Polymarble Top and Cabinet. Please take note of the following Cleaning and Maintenance Instructions to keep your Bloom Laundry Polymarble Top and Cabinet looking as good as new for years to come.

Important Notice:

- The Polymarble Top can be damaged from chemical attack, heat and metal surfaces.
- This cabinet is manufactured from High Moisture Resistant Board (not water proof), so it is important to remove any moisture or water spillage on the surface of the cabinet following use.

To keep your Bloom Laundry Polymarble Top and Cabinet free from damage, the following care instructions are provided below.

- Always clean the Bloom Polymarble Top with clean water after use and dry with a clean cloth.
- Avoid using chemicals directly onto the Bloom Polymarble Top
- Ensure the Bloom Laundry cabinet is kept dry after use and wipe any moisture that is directly on the cabinet to avoid damage.
- Avoid using any metal abrasive scrubbing pads, abrasive soaps or liquids on the polymarble top
- Avoid using any hot appliances on the surface as this will cause the polymarble to discolour.
- Avoid using any hard or sharp objects on the polymarble top as this will cause the top to be scratched. Most small surface scratches can be removed by applying a fine car polish and cutting compound and buffing the surface to make shiny.
