

Eased Edge Shiplap

Cladding

Relaxed and understated

A profile that doesn't need to shout. Eased Edge Shiplap, from Cedar Sales, blends a traditional Shiplap with a Vee Joint profile, resulting in a softer, more relaxed effect. This interesting combination is ideal for both internal and external purposes where a more reserved design approach is required. Use Eased Edge Shiplap, in Western Red Cedar, for either vertical or horizontal applications.

Eased Edge Shiplap features and benefits

- Western Red Cedar is carefully machined to traditional standards
- Gives superior water shedding when used horizontally
- Tongue and groove can be secret nailed for internal use
- For external cladding, face nailing is recommended
- Available in three standard widths and one standard thickness
- Subtle effects

Eased Edge Shiplap is ideal for

- External cladding
- Interior walls and ceilings
- Suits subtle design applications
- Garage doors

Eased Edge Shiplap
