

DEMINERALISED WATER

Diggers Demineralised Water

DESCRIPTION

Diggers Demineralised Water has been passed through a series of chemical stages which extracts all impurities and produces purified water.

TYPICAL USES

- Radiators
- Batteries
- Steam irons
- Highly recommended for watering indoor and delicate plants because it does not create a mineral build-up in the soil

FEATURES

- The water is passed through a chemical process during which minerals and salts are extracted
- Clear, colourless and odourless liquid
- Non-hazardous
- Can be used in conjunction with most coolants

APPLICATION

When using in appliances always follow appliance manufacturer's recommendations and instructions.

Typical Characteristics

Appearanceclear
colourless, odourless liquid
Specific Gravity..... 1
Freezing Point.....0°C
Boiling Point.....100°C
Volatiles 100%
