

ADAPTAKERB

GALVANIZED STEEL STORMWATER OUTLETS FOR STREET KERBS

STORMWATER OUTLETS DESIGNED TO FIT EVERY STREET KERB AND TAKES 90mm OR 100mm STORMWATER PIPES...

NEW LOCKING DEVICE

Locks permanently into concrete kerb - will not move or pop out. Simply fold down lock tabs and AdaptaKerb will anchor into new or existing concrete.

UNBREAKABLE

Specifically designed to take heavy vehicles and tough road conditions. Will not crack or break up.

STORMWATER CONNECTIONS

Specifically designed PVC connector to fit both 90mm and 100mm stormwater pipes.

LARGE MODEL RANGE TO FIT ALL STREET KERBS

There is a model to suit most Council kerb profiles.

HEAVY-DUTY GALVANIZED STEEL

AdaptaKerb is made to last with high quality steel and galvanised to Australian Standards.

LONG LASTING

AdaptaKerbs have been installed in street kerbs since 1989 without breaking or falling apart.

QUICK INSTALLATION

Quick and easy to install - saving you time and money.
