POT & ORNAMENT SEALER

OC0003

REVISED OCT 2001

DESCRIPTION

Bondall Pot & Ornament Sealer is an easy to use masonry sealer. This versatile sealer is the ideal choice for sealing pots and ornaments, after they have been suitably prepared with Bondall Pot & Ornament Cleaner. It will seal, bind, protect and waterproof most vertical masonry surfaces while still retaining a clear natural look. Bondall Pot and Ornament Sealer increases surface hardness; reduces staining and soiling; resists algal and fungal growth; and offers outstanding exterior durability.

TEST AREA - Always test on a small inconspicuous area, to ensure that the product achieves the desired result, prior to application over the entire area.

FEATURES AND BENEFITS

- Easy to use
- Seals pots and ornaments
- Seals, binds, protects and waterproofs most vertical masonry surfaces
- Provides a clear natural finish
- Increases surface hardness
- Prevents staining and soiling
- Resists algal and fungal growth
- Very durable

SURFACE PREPARATION

Surface should be thoroughly clean, using Bondall Pot & Ornament Cleaner, as any stains will become more apparent once sealed.

Bore & Rust Stains, Efflorescence Stains and Moss & Mould growth should be treated prior to sealing.

Please refer to Bondall range of appropriate cleaners to prepare the surface.

APPLICATION

Stir well before use. DO NOT SHAKE contents, as shaking can induce bubbles, which can be trapped on the surface.

Apply all coats undiluted and allow a minimum of 24 hours between coats.

Proper penetration of the first coating is very important.

Care should be taken to apply evenly and not too heavily on pitted surfaces.

It is important not to apply Bondall Pot & Ornament Sealer externally if rain is expected within 48 hours. Do not use in temperatures below 10°C.

COVERAGE

On extremely porous surfaces Bondall Pot & Ornament Sealer will cover approximately 6 square metres per litre. On dense surfaces, coverage will be approximately 10 – 12 square metres per litre. Cover age rate is very much dependant on porosity and texture of the surface.

THINNING

Not Applicable

GLOSS LEVEL

Not applicable

DRYING TIME

Allow a minimum of 24 hours drying time between coats.

CLEAN UP

Wash brushes out whilst wet with water and detergent. Do not pour washings down sink or drains. Dispose of all containers in accordance with local council regulations.

COLOUR

Clear

SIZES

1 Litre and 4 Litre

PRECAUTION/FIRST AID

It is recommended that normal personal protective clothing should be worn, including coveralls, impervious gloves and goggles. Avoid unnecessary skin contact and inhalation – use a suitable respirator if spray application is employed.

If swallowed, contact a doctor or the Poison Information Centre on 13 11 26. Give water to drink and do not induce vomiting.
