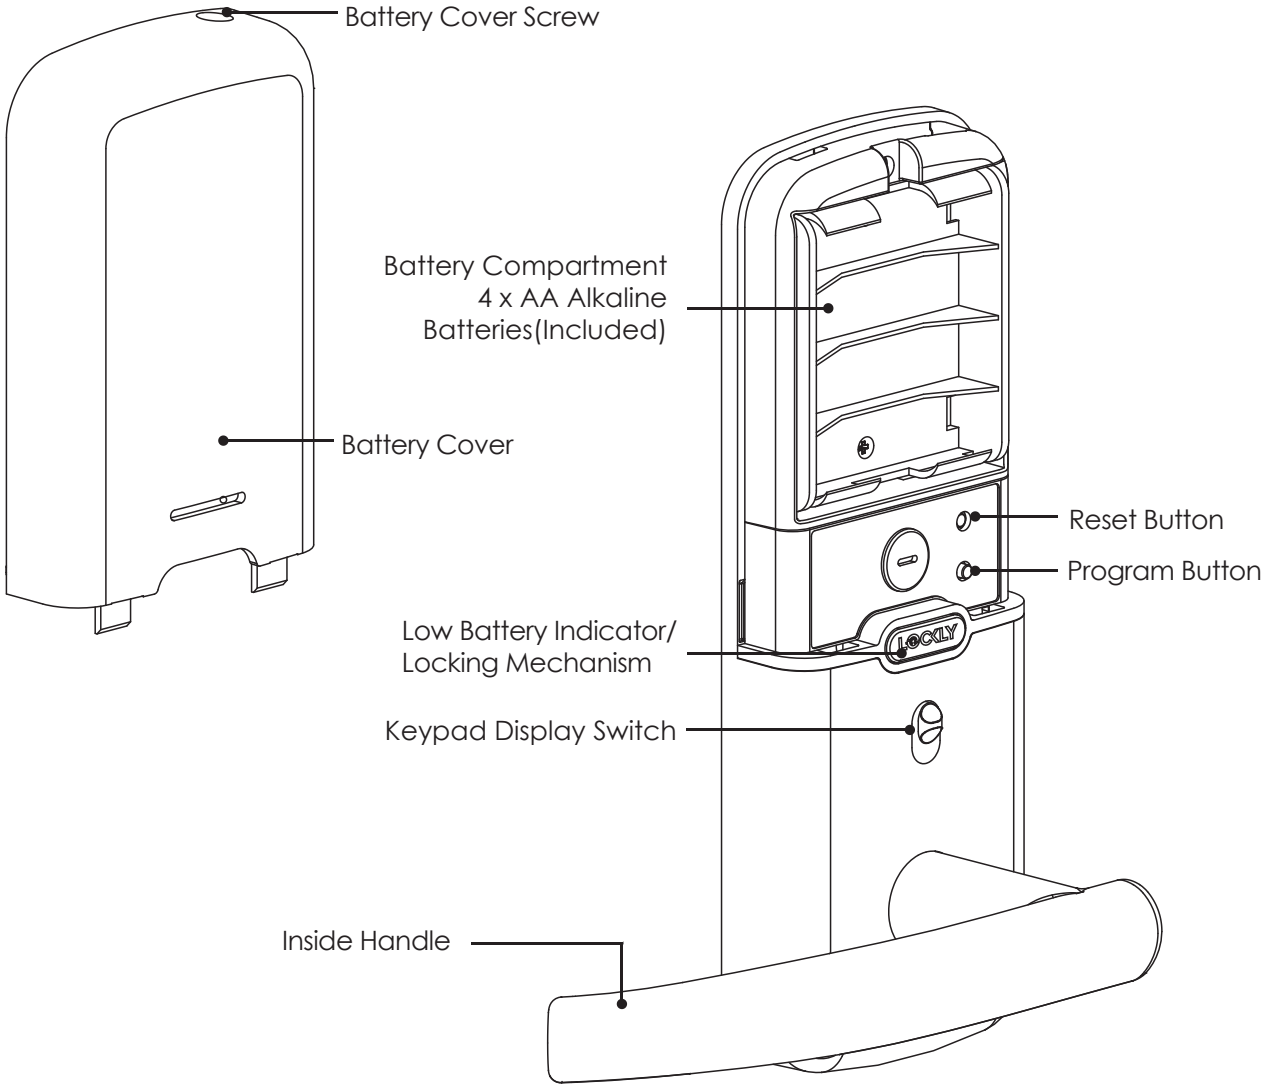
QUICK START GUIDE

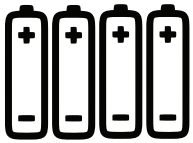
LOCKLY LUX COMPACT

OVERVIEW - EXTERIOR

OVERVIEW - INTERIOR



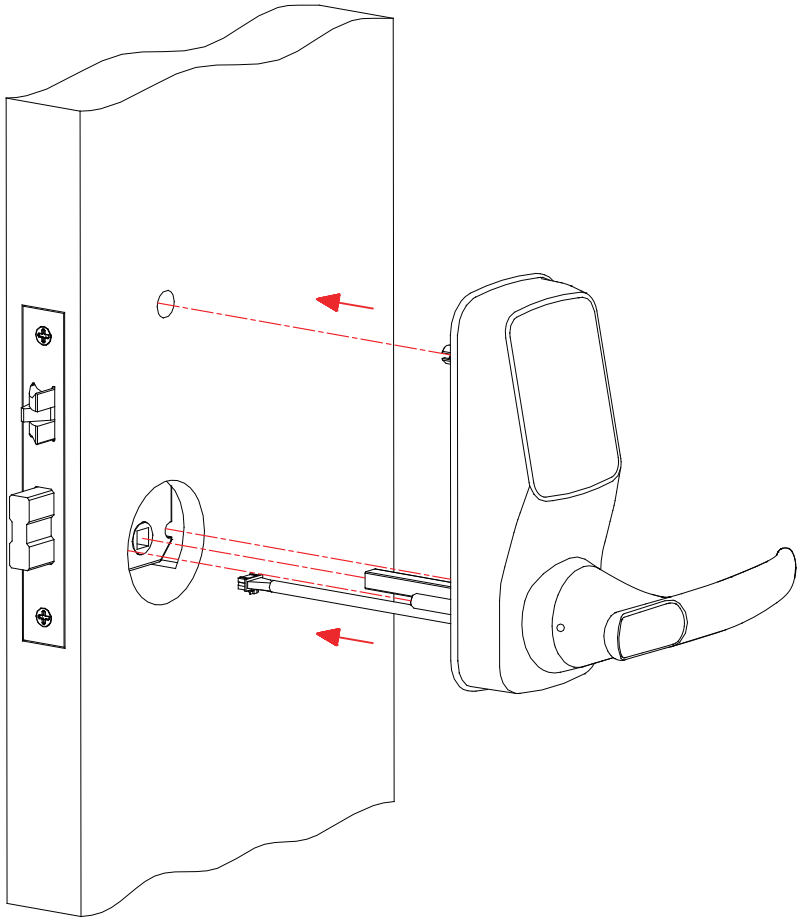
WHAT YOU NEED



1. **Phillips Screwdriver**
2. **4 x AA Batteries (Included)**
3. **Lockly Smart Lock**
4. **Lockly Secure Link***

** Sold Separately. Enables live monitoring and voice assistant control. Add a Secure Link Wifi Hub by visiting Lockly.com.*

1. INSTALL LOCKLY LUX COMPACT



Follow the installation manual step by step to install the Lockly Smart Lock, Secure Link Wi-Fi Hub, and Door Sensor.

2. INSTALL THE APP

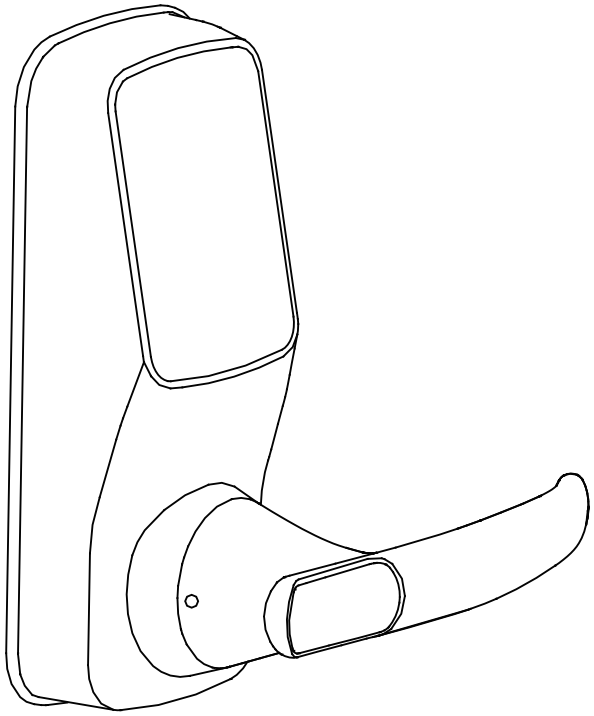
To enable history monitoring, Bluetooth locking/unlocking, the Google Home Assistant or Amazon Alexa voice commands, and OAC (Offline Access Code™), please install the latest version of the Lockly mobile App by visiting the appropriate app store.

Download on the App Store

GET IT ON Google Play

Scan or visit Lockly.com/app

3. PAIR YOUR SMARTPHONE



After installing the app, open it and create an account. Once you have successfully created an account, add a new Lockly smart lock and follow on screen instructions to complete setup. You will need your Initial Code Card that was included in the Lockly smart lock box to proceed.

ENJOY YOUR
LOCKLY SMART LOCK!
