

# Channel Clad

Cladding

## Strikingly modern

An immaculate look for discerning tastes. Cedar Sales' own design studio has produced Channel Clad, in Western Red Cedar. This minimalistic profile is ideal for cladding the exterior of architecturally-designed buildings. Square, flat faces and deep, narrow channels produce an effect that's simply stunning. Channel Clad can be used vertically or horizontally, and its four widths are interchangeable.

## Channel Clad features and benefits

- Superior thermal protection
- Smooth, flat faces without bevel give a flat, square and straight finish
- Deep and narrow recesses create strong shadows
- Machined drip grooves to suit vertical installation
- Can be painted, stained or left unfinished to grey naturally
- Available in four interchangeable widths and two thicknesses
- Provides improved insulation and reduced noise penetration
- Can be proud nailed for additional effect
- Excellent environmental credentials

### Get creative!

Can be interchanged with the Channel Clad with Centre Groove product range.

## Channel Clad is ideal for

- Modern, architecturally-designed buildings
- Alternative to standard wall claddings
