### Features

Smooth One Piece Ceramic Black Glass Hob Design with Touch Control and Bevelled Edges

Timer Function

Safety Lock

Standby Mode (Clock)

Automatic Ignition

Cast Iron Trivets

Front Control Operation

Flame Failure

### Benefits

The smooth one piece hob with European inspired ceramic black glass and bevelled edge design makes it both elegant in appearance and easy to maintain. The Touch Control operation offers the smart technology of an electric cooktop with the power of gas cooking.

A convenient and easy way to program the cooking time on any burner. An acoustic signal will indicate when the timer has ended and the burner will switch off automatically.

A safety feature, the child lock that lets you lock the appliance for cleaning or to prevent accidental switching on by children.

In the standby mode the cooktop burners are off and the control panel is active showing the present time in the display.

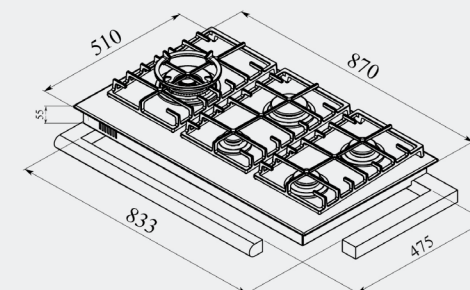

Ease of operation, no need for manual ignition, simply touch the control button and the gas connection ignites.

Complimenting the black glass design of the hob, whilst providing a non-slip surface for pots and pans.

Added safety while cooking as there is no need to lean over a naked flame to operate the controls.

Extra safety in the kitchen offering peace of mind, the gas will shut off when there is no continuous flame.

## Specifications

Dimensions:	870W x 510D x 55H (mm)
Cut-out size:	833W x 475D (mm)
Power Cord:	240V
Power Cord Length:	1.8 meters
	Suitable for Natural Gas & U-LPG
