

AQUILEGIA GIANT MIXED

Granny's Bonnet, as it is popularly known, is a splendid early flowering border plant. These flowers are perfect in a cottage garden and are an excellent cut flower. The plant grows to 60cm. A hardy perennial, flowers year after year in sun or partial shade

CALLA LILY RHEMANNII PINK

The **Calla Lily** have spectacular blooms which are very long lasting making them excellent cut flowers. Also known as Zantedeschia, our beautiful bulbs should produce between 3 and 7 flowers in their first year. Becoming stronger and more vigorous once settled in plants will provide pups in a year or two. Best planted August - September in cool climates, once the risk of frost is over..

CHINESE GROUND ORCHID

Chinese Ground Orchid is a hardy and easy to grow terrestrial orchid. Light green pleated leaves give rise to a single inflorescence that has up to 12 mauve pink nodding blooms in spring. It is suggested to protect from frosts. They are perfect for pots and containers. Prefers a full sun to part shade position. Re-pot in autumn.

GLADIOLI PINK

Gladioli are a premium selection of glorious vibrant colours. Massed planting make brilliant garden displays. Gladioli flower around 100 days after planting. Plant corms with flat side down. Corms can be dug 4-6 weeks after flowering or as soon as the leaves yellow. Pick flowers by taking a knife down along the stem then twisting across the stem at the required length. This will help ensure the foliage is left, allowing the bulb to continue growing.

GLADIOLI PLUM TART

Gladioli are a premium selection of glorious vibrant colours. Massed planting make brilliant garden displays. Gladioli flower around 100 days after planting. Plant corms with flat side down. Corms can be dug 4-6 weeks after flowering or as soon as the leaves yellow. Pick flowers by taking a knife down along the stem then twisting across the stem at the required length. This will help ensure the foliage is left, allowing the bulb to continue growing.

LILIIUM ASIATIC MAPIRA

Asiatic Pot Lilies have shorter stems than the LA Hybrid and are ideally suited to cut flowers and colourful garden beds. Each bulb produces 4 to 5 blooms in summer. Protection from strong winds is recommended. Prefers a full sun position ideal for pots and containers.

LILIIUM ORANGE ART

Lillium hybrid are renowned for their stunning blooms longevity and ease of growing. Strong stems that can produce 10-20 blooms per stem make them a worthy addition to your garden. Summer flowering. Grows 1.5m in height.

TIGER LILY RED VELVET

Tiger Lilies are easy to grow, provide stunning colour to your garden and have an abundance of blooms throughout Summer. Excellent cut flower. Due to the strong stems no staking is required. Prefer a sunny position in well drained soil. Great for cut flowers. Can be grown in pots. To keep flowering at its best add fertiliser each Spring and Summer.
