

- Air flow (m<sup>3</sup>/h): 460m<sup>3</sup>/h up to 3 m user range.
- Economical and natural Cooling: only 70W input power.
- Electronic control panel with Remote control
- Integrated central LED display
- 3 speed fan
- 3 wind modes (Natural, Normal, Sleep)
- 0-24 hours shut-off timer
- Water pump system
- Water level indicator
- Motorized swing grid function
- Manual vertical adjustable louver
- 2 ice block included

### Air Ionizer

Releases negative ions into the room to help reduce the pollutants in the air and improve air quality.

### Water Splash Resistant

IPX4 Water rating means the unit is resistant to water splashes from any direction

### Cooling Fan

The 4.5L water tank will last up to 6 hours, then the machine will continue to run as a fan once empty.

## TECHNICAL SPECIFICATIONS

Dimensions (H x W x D)	mm	705 x 340 x 280
Rated voltage/Frequency	V/Hz	220-240/50
Cooling power	W	55
Air Flow Speed	m <sup>3</sup> /h	460
Max water injection	L	4.5
Evaporative Rate	MI/hr	800
Net Weight	Kg	7
Warranty		1 year
