

Liquid sealant is suitable for all water pipe threads

APPLICATION:

1. Remove oil contamination from the area that adhesive is to be applied.
2. Apply enough adhesive by covering the entire surface to be sealed.
3. Curing time is 10-20 minutes depending on material. However, full cure time is 24 hours.
4. Hand tools are required for disassembly.

CAUTION:

1. Apply this product with good ventilation.
When product comes in contact with eye or skin, flush with clean water immediately.

*Store at a dry and cool area.
Keep away from children.*
