

Install Insulation Easily

IS24 insulation supports make securing insulation easy.

Cut from specialty wire for optimal flexibility and strength the IS24 secures insulation between 600 mm joist spacing. The support ends secure into the timber holding the insulation in place between joists and rafters.

Features

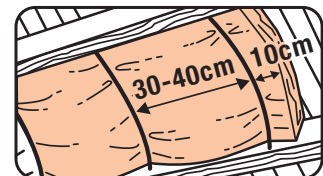

- 100 insulation supports covers approximately 21 m² (600 mm joist spacing)
- Easy one-hand installation
- Ends secure into timber

Material

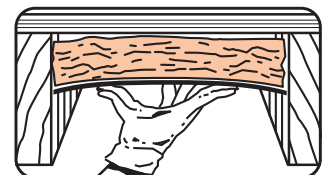

- 2 mm thick.

- Ideal for confined spaces. Follow insulation manufacturer's installation instructions.
- Wear appropriate Personal Protection Equipment (PPE).

- Start 10 cm from end.
- Install one support every 30 – 40 cm.

- Easy one-hand push-in installation, holds insulation securely in place.
- Ends secure into timber for permanent installation.
