New Concept in Door Locks
PUSH PULL
SERIES

Easy Way to Open Door
• Easy access using push-pull handle
• Both push-pull/pull-push available

Secured Lock-up
• Robust structural-design
• Anti-hacking encryption protocol

Smart Functions
• Automatic wake-up on approaching
• Locking notification on touch panel

Innovative Technology
• 14 patents pending
• Unprecedented design with modern style

Door Lock's PUSH PULL

Push Pull's SAMSUNG

Easy way to open door

Don't turn. Just push it!

A new concept of push and pull design makes it convenient to use. Easy single-motion to open door. (Push a handle from the outside and pull it from the inside of the house.)

Push   Pull

Normal lock 2 step (Turn and Push)   SHS-P717 1 step (Just Push or Pull)

Both push-pull and pull-push type available

Depending on the direction of the door installed in the residence, customer can choose from either push-pull type or pull-push type on purchase.

Push   Pull   or   Pull   Push

Model : SHS-P717LMK/EN   Model : SHS-P717XMK/EN

Smart Functions

Automatic wake-up on approaching

IR sensor detects motion within 70 cm and wakes up the lock automatically

Locking notification on touch panel

It notifies the status of the door on touch panel ('Locked', 'Unlocked')

Warning alarm for possible intruder

It alarms when a motion keeps being sensed longer than a certain time period (one minute) warning alarm
Manner Mode

It allows you to make a quite entrance at late night. (Push * button and user access codes)
Secured Lock-up!

Various ways to open door make easy and safe entrance

User Access Code   RF Card   Key Tag   Mechanical Override Key

Safe and robust design

Integrated structure of handle and main body that prevents from forced entrance

It can be opened by one punching on a key tail (in case of forced entrance)   When a key tail is punched, handle plays a role of blocking it.

Technology and Design

14 patents pending (push-pull)

3 international patents

Two-way latch mortise Softer feel of door open!

Verified by self-test of 300,000 runs

Superior design that has won 3 major design awards

Samsung Smart Door Lock products won 3 major design awards (German IF, Red Dot Design Award and US IDEA Design Award).

• Specification

User access code	4~12 digit number combination , capacity : 10
RF ID	ISO 14443A type(13.56Mhz), capacity : 20
Size (WxHxD)	Outer body : 85x346.5x61mm Inner body : 86x354.8x63mm
Door thickness	38~80mm
Power	DC 6V (AA Alkaline Batteries)X8
Battery Life	Approximately 12 months (Average – 10 times per day)
