STEP 1

Measure
your space

**DESIGN YOUR OUTDOOR KITCHEN
AREA USING OUR MEASUREMENT
AND GRID SYSTEM**

ALFRESCOPLUS™ - THE OPTIONS ARE LIMITLESS

Your AlfrescoPlus™ outdoor kitchen can be made as small or as large as you like – to suit your alfresco area and your budget.

ALFRESCOPLUS™ OUTDOOR BBQ KITCHENS

The epitome of beauty and function rolled into one. We bring together market leading appliances, premium materials and award-winning services to make your Outdoor BBQ Kitchen more than just a dream.

PRE-PACKAGED FLATPACK ALFRESCOPLUS™ DIY RANGE

The AlfrescoPlus™ Range makes it easy to get your outdoor BBQ kitchen setup. We've done the thinking for you, packing popular colour palettes with ready to go appliances making your install from start to finish achievable by the DIYer. The cupboard modules are all delivered in a flat pack form for easy transport.

ALFRESCOPLUS™ ALUMINIUM FRAME

The AlfrescoPlus™ aluminium framing system provides the backbone of our outdoor kitchens. They harness the power of technological advances and engineering perfection, bringing together a patented cabinetry system that's unlike anything else on the market.

When combined with waterproof PVC panels, AlfrescoPlus™ aluminium extrusions join seamlessly, forming a rigid and robust cabinetry solution that is almost 4 times quicker to construct than traditional cabinetry.

STEP 2

Select your appliances

Australians love their barbecues and their outdoor lifestyles. Now with AlfrescoPlus™ total commitment to excellence in quality, design and both technical innovation and standards, your outdoor space can be transformed into a desirable entertaining alfresco area.

IMPORTANT INSTALLATION INFORMATION

1. It is recommended that your AlfrescoPlus™ Outdoor Kitchen is assembled, installed and positioned wholly or partially under cover. This will protect the unit from the elements and generally keep it cleaner.
2. When positioning the outdoor kitchen, it must conform to both State and Australian Standards. i.e. open ventilation and also distance to combustible surfaces. Refer to your BBQ instruction manual for more details.
3. LPG Installations - if you choose to run your selected BBQ on LPG, it is essential that when you install the BBQ into your AlfrescoPlus™ Outdoor Kitchen, you check the ventilation of the gas cylinder in the cabinet. A ventilation kit must be installed and, depending on your configuration, the kit may need to be installed in the side, back or door of your BBQ cabinet module. Contact AlfrescoPlus™ on 1300 174 876 for assistance.
4. Using alternative BBQs to those available as part of the AlfrescoPlus™ offer - If the BBQs that are available do not suit your needs or you already have a BBQ that you would like to install in your AlfrescoPlus™ Outdoor Kitchen, please leave your details at the Bunnings Special Orders Desk and AlfrescoPlus™ will contact you and endeavour to meet your needs and design requirements with a custom designed BBQ module. Alternatively, you can call AlfrescoPlus™ on 1300 174 876 for assistance.

***NOTE:** Tops on Single and Double modules are deeper than the cabinets to allow for hot and cold plumbing, electrical cords and drainage to run behind the outdoor kitchen when assembled. The legs on each module are designed to be adjusted for levelling.

STEP 4

All modules come with a stunning UV stabilised black acrylic quartz bench top finish and can be fitted with a choice of 3 different colour compact laminate doors. All fitted with high quality hardware, levelling legs and kicker panels.

Pick your colour

ACRYLIC QUARTZ BENCH TOP

Resistant to scratching, virtually zero porosity and highly resistant to aggressive chemicals, high temperatures and UV rays.

COMPACT LAMINATE DOOR FINISHES

arctic white

cadet grey

black onyx

AlfrescoPlus™ have combined high quality materials expected by the chef in all of us. Clean surfaces that are nice to touch and resistant to all BBQ cooking methods that take place over years of use. Designed perfectly for busy gatherings, capable of creating spaces that make preparing food a pleasant experience that precedes the pleasure of sharing a meal with friends or family. These finishes represent beauty and solidity with easy, fuss free cleaning and what really matters is that you do not have to worry about scratches, stains or traces of heat. A simple wipe with a cloth is all it takes so you can spend more time entertaining

PLANNING AND DESIGNING YOUR NEW OUTDOOR KITCHEN

It's easy with our measurement and grid system

Start by: **MEASURING AND MARKING** your alfresco dimensions using this grid as a guide for the layout of your outdoor kitchen. Make sure you calculate accurate measurements of cabinets and end panels. Use the measurements of cabinets below.

Don't forget your end panels - these are the easiest components to forget when designing an outdoor kitchen but are necessary to really finish off your kitchen.

3m x 5m
