MASPORT SIDE DISCHARGE RANGE (SDR)

SIDE DISCHARGE AND MULCHING RIDE-ON MOWERS

MINI RIDER 552950

Compact, inexpensive and easy to use! This Briggs & Stratton powered rear engine mini rider is ideally suited to those with smaller yards or restricted access. This rider may also suit those who have limited storage space.

190cc
Engine

24"
Deck

KEY FEATURES

- 190cc Briggs and Stratton Pro Electric Start
- 6 speed transmission
- Cutting height 24mm – 81mm
- 5 cutting positions
- Steel bumper
- Tool-less deck removal
- Reverse mowing ability

RER 3000 552853

Compact, powerful and easy to drive. This rear engine rider with its simple controls, great operator visibility and 30" cutting deck, will make short work of cutting the grass around the home.

420cc
Engine

30"
Deck

KEY FEATURES

- Powermore 420cc OHV engine
- Mulch kit standard
- 6 speed transmission
- Cutting height 24mm – 81mm
- 5 cutting positions
- Steel bumper
- Tool-less deck removal
- Reverse mowing ability

MASPORT SIDE DISCHARGE RANGE (SDR)

S - SERIES

HVT 4200 552903

This lawn tractor combines all the best features this range has to offer with added durability and operator convenience including, electronic blade engagement, fully adjustable high back seat, tool-less deck removal, mulch kit and a hydrostatic transmission. Ideally suited for large blocks, this tractor is powered by the 18HP Kawasaki V-twin OHV engine and, when combined with the heavy duty 42" deck, including anti-scalp wheels, it ensures a perfect finish each and every time.

18^{HP}
Engine

42"
Deck

KEY FEATURES

- 18HP Kawasaki engine
- Mulch kit standard
- Hydrostatic transmission
- Cutting height 25mm – 100mm
- 12 cutting positions
- Heavy duty solid steel chassis
- Offset 42" side discharge deck
- Electromagnetic deck engagement
- Cast iron pivoting front axle
- Tool-less deck removal

S220 107 SD 552746

This straightforward but high quality Ride-on mower, driven by a Hydro-gear HG T2 hydrostatic transmission, provides the user with infinitely variable speed and bi-directional control, making light work of the task at hand. Equipped with a 22HP Briggs & Stratton V-twin engine, it delivers power effortlessly to the robust 42" side discharge deck. The mowing deck is fitted with heavy duty high lift blades and anti-scalp wheels to deliver a neat and tidy finish each and every time.

22^{HP}
Engine

MASPORT S-SERIES

REAR CATCHER

S220 102HD ELITE 552957

The 40" twin blades make for quick and effective mowing suitable for most home and lifestyle blocks. The integrated mulching system is a real advantage on this machine. You can choose to mulch or catch by simply adjusting the lever.

22^{HP}
Engine

40"
Deck

KEY FEATURES

- Briggs & Stratton Intek™ 22 HP V twin engine
- Integrated mulching capability
- Hydrostatic Tuff Torq K46 foot operated transmission
- Cut heights 25mm - 80mm
- 320L catcher - automatic or manual catcher full indicator
- Sturdy front bumper
- Speed 0-9.5 Km/h
- Tow hitch included
- Optional rear deflector

S155 92HD 552716

A smaller and more compact lawn tractor, designed for areas where size doesn't necessarily matter. The cutting deck measures 36" allowing it to manoeuvre between garden beds and gates with ease. This lawn tractor features the integrated mulching system which allows you to catch or mulch from the comfort of the seat.

15.5^{HP}
Engine

36"
Deck

KEY FEATURES

- Briggs & Stratton 15.5 HP Powerbuilt engine
- Integrated mulching capability
- HydroGear T2 foot operated transmission
- Cut heights 30mm - 90mm
- 300L catcher - full catcher
- buzzer alert
- Sturdy front bumper
- Speed 0-10 Km/h
- Tow hitch included
- Optional rear deflector

LAP BARS

MASPORT RIDE-ON RANGE SDR ICON GUIDE

CATCHER FULL FUNCTION (2 options)

AUTO - cutting blades will automatically stop once the bag is full to avoid any over filling or clogging of the chute.
MANUAL - Audio buzzer sounds once catcher is full. Blades will continue to work until turned off.

DECK DESIGN

Sturdy steel cutting deck with synchronised contra rotating, high lift blades.

- Safety shear pins to protect belts and spindles.
- Hardened and tempered blades for increased durability.

INTEGRATED MULCHING LEVER

The single lever design makes it very easy when engaging or disengaging the mulching function. This can all be done without having to leave the seat of the ride-on mower.

REAR DEFLECTOR

There is a rear deflector accessory suitable for all S-Series lawn tractor mowers. This gives you the option of spreading the grass cuttings.

TUFF TORQ TRANSAXLES - The latest generation transaxles designed with a diagonal bulkhead into the casting to increase stiffness and reduce noise. These units are designed specifically for lawn tractor mowers.

HYDROGEAR T2 TRANSMISSION - Combines Hydro-Gear's proven 8cc axial piston pump and 10cc axial piston motor in a twin axle integrated package. The T2 provides infinitely variable speed, bi-directional control for precise handling, as well as an Integrated design for fewer potential leak points, a rugged die cast aluminum housing and quiet operation.

ANTI-SCALP WHEELS

Anti-scalp wheels protect both your lawn and your deck. They prevent your lawn from being scalped by the deck and blades, allowing them to roll smoothly over undulating ground. The anti-scalp wheels also protect the deck and blades from contact with undulating ground or obstacles such as driveways.

BRIGGS & STRATTON AND KAWASAKI ENGINES

Powerful engine options delivering superior performance and durability.

SIDE DISCHARGE AND MULCHING

Can be easily converted into a mulching deck by removing the discharge chute and fitting the mulching cover no tools required.

OFFSET DECK DESIGN

Masport offset decks are designed to have the discharge side of the deck trailing behind the other side, therefore providing full blade coverage when cutting the grass. This means all the grass is cut in one movement, without leaving uncut strips in the middle.

ZERO TURN

The zero turn radius means these mowers are highly manoeuvrable, allowing you to mow around obstacles with ease and to get closer to edges. It also means less mowing time as you can turn on the spot, more time in action and less manoeuvring while lining up.

ADJUSTABLE LAP BARS

Large lap bars fitted with comfort grips, tool-less position adjustment, as well as an integrated parking brake - all this gives you ultimate comfort and control at your fingertips.

PIVOTING FRONT AXLE

The front axle pivots independently allowing more traction and control over uneven surfaces. This also makes for a smoother ride for the operator.

MANUAL & AUTO CVT TRANSMISSIONS

Simple and effective, the 6 speed transmission is easy to use and gear selections can be made on the move without having to stop. Auto CVT is a low maintenance drive system which provides easy speed selection with the shift of a lever. Speed change is smooth, precise and very easy to use.

TOOL-LESS CUTTING DECK REMOVAL

Masport SDR 30", 38" and 42" cutting decks can be removed effortlessly without using tools. This makes it easier for DIY home maintenance, servicing and cleaning of the underside of the cutting deck.
