○ SP13AB

### COLONIAL

#### Superior Range

Features a high quality and impact resistant #316 grade woven stainless steel mesh fitted inside the frame by way of a double locking wedge and an acrylic adhesive.

The black finish of the mesh is designed to be neutral so as to enhance your view, not the mesh.

The "Superior" door combines strength and quality with an unobtrusive view.

#### Colonial Range

Features a decorative cast aluminium panel fitted within the frame and finished with a quality fibreglass mesh.

There are 4 highly popular panel inserts available in the "Colonial" range, each of which are finished in the same durable powder coat as the frame.

The "Colonial" door combines elegance with quality and will give your home a new look.

<b>R</b>	mm

### Width

<b>T</b>	mm
<b>C</b>	mm
<b>B</b>	mm

### Lock/Handle

Check the space between your existing door lock and the outside face of your jamb.

The gap required to ensure your new barrier door fits is minimum 20mm.

<b>J</b>	mm

### Handle Height

Nominate your new barrier door handle height. Enter your distance from the sill up to the centre of the lever.

<b>N</b>	mm
----------	----

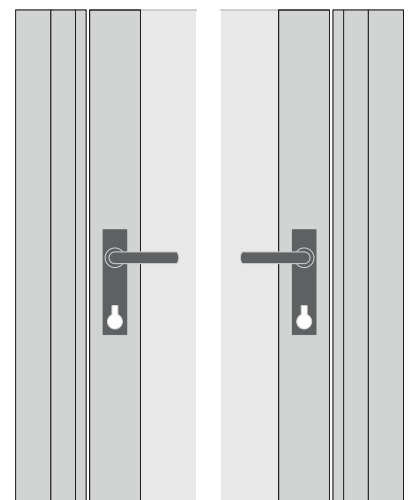

**IMPORTANT**  
Ensure the height of the handle of your new barrier door will not collide with the handle of your existing door when closed.

### Choose your handle side

From the outside looking in, on which side would you like the handle on your barrier door?

Usually it is the same side as the handle on your existing door.
