

# Safety Data Sheet

MSDS No.	118350	Issue Date:	November 2017	Page:	1 of 6
Product Name:	<b>OSMOCOTE LIQUID FERTILISER BOOST &amp; FEED ALL OUTDOOR PLANTS (HOSE-ON)</b>			Version:	1.0

## 1. IDENTIFICATION OF THE MATERIAL AND SUPPLIER

<b>Product identifier</b>	OSMOCOTE LIQUID FERTILISER BOOST & FEED ALL OUTDOOR PLANTS (HOSE-ON)	
<b>Other means of identification</b>	-	
<b>Recommended use and restrictions on use</b>	Liquid fertiliser	
<b>Supplier name</b>	SCOTTS AUSTRALIA PTY LTD	
<b>Address</b>	Australia: Building E, Level 2 32 Lexington Drive Bella Vista NSW 2153	New Zealand: Level 4 152 Fanshawe St Auckland 1140
<b>Telephone</b>	(02) 8602 9000	0800 449 213
<b>Emergency telephone</b>	1800 033 111 (24 hour)	0800 734 607 (24 hour)

## 2. HAZARDS IDENTIFICATION

<b>Hazard classification</b>	<b>Australia:</b> Classified as hazardous according to the GHS criteria of Safe Work Australia. <b>GHS signal word: WARNING</b> <b>Skin corrosion/irritation category 2</b> <b>Serious eye damage/eye irritation category 2.</b>  <b>HEALTH HAZARD STATEMENT:</b> H315: Causes skin irritation. H319: Causes serious eye irritation.  <b>GENERAL</b> P101: If medical advice is needed, have product container or label at hand. P102: Keep out of reach of children. P103: Read label before use.  <b>PREVENTION</b> P264: Wash hands thoroughly after handling. P280: Wear protective gloves and eye/face protection.  <b>RESPONSE</b> P302 + P352: IF ON SKIN: Wash with plenty of soap and water. P305 + P351+ P338: IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses if present and easy to do so. Continue rinsing. P337+ P313: If eye irritation persists: Get medical advice/attention. P332 + P313: If skin irritation occurs: Get medical advice/attention. P321: Specific treatment: see section 4 of this SDS. P362: Take off contaminated clothing and wash before reuse. P370+P378: Not combustible. Use extinguishing media suited to burning materials.  <b>STORAGE</b> P410: Protect from sunlight. P403+P233: Store in a well-ventilated place. Keep container tightly closed.
------------------------------	--

# Safety Data Sheet

MSDS No.	118350	Issue Date:	November 2017	Page:	2 of 6
Product Name:	<b>OSMOCOTE LIQUID FERTILISER BOOST &amp; FEED ALL OUTDOOR PLANTS (HOSE-ON)</b>			Version:	1.0

## DISPOSAL

P501: If they cannot be recycled, dispose of contents to an approved waste disposal plant and containers to landfill (see Section 13 of this SDS).

## 3. COMPOSITION/INFORMATION ON INGREDIENTS

Name	CAS	Concentration
Urea phosphate	4401-74-5	1-5%
Copper EDTA	54453-03-1	<1%
Proxel GXL	-	<1%
Other ingredients determined not to be hazardous.	-	To 100%

## 4. FIRST AID MEASURES

<b>General information</b>	You should call The Poisons Information Centre if you feel that you may have been poisoned, burned or irritated by this product. The number is 13 11 26 from anywhere in Australia (0800 764 766 in New Zealand) and is available at all times. Have this SDS with you when you call.
<b>Inhalation</b>	No first aid measures normally required. However, if inhalation has occurred, and irritation has developed, remove to fresh air and observe until recovered. If irritation becomes painful or persists more than about 30 minutes, seek medical advice.
<b>Skin contact</b>	Remove contaminated clothing and shoes immediately. Wash gently and thoroughly with water (use non-abrasive soap if necessary) for 15 minutes or until chemical is removed. Avoid spreading material onto unaffected skin.
<b>Eye contact</b>	Immediately flush the contaminated eye(s) with lukewarm, gently flowing water while holding the eyelid(s) open. Obtain medical attention if irritation persists. Take special care if exposed person is wearing contact lenses. Remove contact if easy to do and continue rinsing.
<b>Ingestion</b>	If product is swallowed or gets in mouth, do NOT induce vomiting; wash mouth with water and give some water to drink. If symptoms develop, or if in doubt contact a Poisons Information Centre or a doctor.

## 5. FIRE FIGHTING MEASURES

<b>Suitable extinguishing media</b>	Not combustible. Use extinguishing media suited to surrounding fire.
<b>Specific hazards arising from the chemical</b>	The major hazard in fires is usually inhalation of heated and toxic or oxygen deficient (or both), fire gases. There is no risk of an explosion from this product under normal circumstances if it is involved in a fire. Fire decomposition products from this product may be toxic if inhaled. Take appropriate protective measures.
<b>Special protective equipment and precautions for fire fighters</b>	When fighting fires involving significant quantities of this product, wear a splash suit complete with self-contained breathing apparatus.

## 6. ACCIDENTAL RELEASE MEASURES

<b>Personal precautions, protective equipment and</b>	Eye/face protective equipment should comprise, as a minimum, protective glasses and, preferably, goggles. Thoroughly launder protective clothing before storage or re-use. Advise laundry of nature of contamination when sending contaminated clothing to laundry.

# Safety Data Sheet

MSDS No.	118350	Issue Date:	November 2017	Page:	3 of 6
Product Name:	<b>OSMOCOTE LIQUID FERTILISER BOOST &amp; FEED ALL OUTDOOR PLANTS (HOSE-ON)</b>			Version:	1.0

<b>emergency procedures</b>	
<b>Environmental precautions</b>	Spills, rinse water and clean-up material from entering drains, sewers, streams and other waterways.
<b>Methods and materials for containment and cleanup</b>	Stop leak if safe to do so, and contain spill. Soak up spilled chemical with absorbent material such as sand, cat litter, etc. Sweep up and shovel or collect into labelled containers for prompt disposal. Consider vacuuming if appropriate. Recycle containers wherever possible after careful cleaning. After spills, wash area preventing runoff from entering drains. If a significant quantity of material enters drains, advise emergency services. This material may be suitable for approved landfill. Ensure legality of disposal by consulting regulations prior to disposal.

## 7. HANDLING AND STORAGE

<b>Precautions for safe handling</b>	Keep exposure to this product to a minimum, and minimise the quantities kept in work areas. Check Section 8 of this SDS for details of personal protective measures, and make sure that those measures are followed. The measures detailed below under "Storage" should be followed during handling in order to minimise risks to persons using the product in the workplace
<b>Conditions for safe storage including incompatibilities</b>	Store packages of this product in a cool place. Keep containers dry and away from water. Keep containers of this product in a well ventilated area. Protect this product from light. Check packaging - there may be further storage instructions on the label.

## 8. EXPOSURE CONTROLS/PERSONAL PROTECTION

<b>National exposure standards</b>	Exposure limits have not been established by SWA for this product.
<b>Biological monitoring</b>	Not required for this material.
<b>General</b>	The following Australian Standards will provide general advice regarding safety clothing and equipment: Respiratory equipment: <b>AS/NZS 1715</b> , Protective Gloves: <b>AS 2161</b> , Occupational Protective Clothing: AS/NZS 4501 set 2008, Industrial Eye Protection: <b>AS1336</b> and <b>AS/NZS 1337</b> , Occupational Protective Footwear: <b>AS/NZS2210</b> .
<b>Appropriate engineering controls</b>	This product should only be used where there is ventilation that is adequate to keep exposure below the TWA levels. If necessary, use a fan or exhaust extraction system.
<b>Respiratory Protection</b>	Respiratory protection is not normally required for handling this product.
<b>Skin protection</b>	Prevent skin contact by wearing impervious gloves and long-sleeved clothes. Make sure that all skin areas are covered.
<b>Eye and face protection</b>	Product is classified as an eye irritant. Wear suitable protective glasses with side shields or chemical goggles.

## 9. PHYSICAL AND CHEMICAL PROPERTIES

<b>Appearance</b>	Brown liquid
<b>Odour</b>	No information available
<b>Odour threshold</b>	No information available
<b>pH</b>	<4
<b>Melting point/freezing point</b>	No information available
<b>Boiling point</b>	No information available
<b>Flashpoint</b>	No information available

# Safety Data Sheet

MSDS No.	118350	Issue Date:	November 2017	Page:	4 of 6
Product Name:	<b>OSMOCOTE LIQUID FERTILISER BOOST &amp; FEED ALL OUTDOOR PLANTS (HOSE-ON)</b>			Version:	1.0

<b>Evaporation rate</b>	No information available
<b>Flammability</b>	No information available
<b>Upper/lower flammability limits</b>	No information available
<b>Vapour pressure</b>	No information available
<b>Vapour density (Air=1)</b>	No information available
<b>Solubility</b>	Soluble
<b>Bulk density/specific gravity</b>	No information available

## 10. STABILITY AND REACTIVITY

<b>Reactivity</b>	This product is unlikely to react or decompose under normal storage conditions. However, if you have any doubts, contact the supplier for advice on shelf life properties.
<b>Incompatible materials and possible hazardous reactions</b>	No particular incompatibilities.
<b>Conditions to avoid</b>	This product should be kept in a cool place, preferably below 30°C. Containers should be kept dry. Keep containers and surrounding areas well ventilated. Protect this product from direct sunlight.
<b>Hazardous decomposition products</b>	Combustion forms carbon dioxide, and if incomplete, carbon monoxide and possibly smoke. Water is also formed. May form nitrogen and its compounds, and under some circumstances, oxides of nitrogen. Occasionally hydrogen cyanide gas in reducing atmospheres. May form oxides of sulphur (sulphur dioxide is a respiratory hazard) and other sulphur compounds. Most will have a foul odour. Carbon monoxide poisoning produces headache, weakness, nausea, dizziness, confusion, dimness of vision, disturbance of judgment, and unconsciousness followed by coma and death.

## 11. TOXICOLOGICAL INFORMATION

<b>Inhalation</b>	<b>Short Term Exposure:</b> Inhalation of liquid mists (bioaerosols) may irritate, inflame or sensitise the nose, throat and lungs. May aggravate pre-existing conditions such as pneumonia and bronchitis. <b>Long Term Exposure:</b> No long term exposure information available.
<b>Acute toxicity</b>	<b>Short Term Exposure:</b> Significant oral exposure is considered to be unlikely. This product, while believed not to be harmful, may cause headache and gastric disturbance such as nausea and vomiting if ingested in significant quantities. However, this product may be irritating to mucous membranes but is unlikely to cause anything more than transient discomfort. <b>Long Term Exposure:</b> No data for health effects associated with long term ingestion.
<b>Skin corrosion/irritation</b>	<b>Short Term Exposure:</b> Classified as a skin irritant based on ingredient classification. <b>Long Term Exposure:</b> No data for health effects associated with long term skin exposure.
<b>Serious eye damage/irritation</b>	<b>Short Term Exposure:</b> Classified as a serious eye irritant based on ingredient classifications. May cause eye irritation and discomfort. <b>Long Term Exposure:</b> No data for health effects associated with long term eye exposure.
<b>Chronic effects</b>	<b>Chronic Effects:</b> Direct contact and repeated inhalation liquid mists from these products may cause skin irritation or infection, respiratory irritation, inflammation or sensitisation of the nose,

# Safety Data Sheet

MSDS No.	118350	Issue Date:	November 2017	Page:	5 of 6
Product Name:	<b>OSMOCOTE LIQUID FERTILISER BOOST &amp; FEED ALL OUTDOOR PLANTS (HOSE-ON)</b>			Version:	1.0

throat and lungs. Children, pregnant women, the elderly, people with pre-existing conditions or the immuno-compromised may be at a particular risk if exposed to these products. All people working with these and other horticultural and landscaping products should safeguard themselves from tetanus.

**Respiratory or skin sensitisation** This material has not been classified as a respiratory or skin sensitizer.

**Germ cell mutagenicity** This material has not been classified as a mutagen.

**Carcinogenicity** This material has not been classified as a carcinogen.

**Reproductive toxicity** This material has not been classified as a reproductive toxicant.

**Specific target organ toxicity (STOT)- single exposure** This material has not been classified as a target organ toxicant.

**Specific target organ toxicity (STOT)- repeated exposure** This material has not been classified as a target organ toxicant.

**Aspiration hazard** This material has not been classified as an aspiration hazard.

## 12. ECOLOGICAL INFORMATION

**Ecotoxicity** Insufficient data to be sure of status. Expected to not be a significant environmental hazard.

**Persistence and degradability** Insufficient information available.

**Bioaccumulative potential** Insufficient information available.

**Mobility in soil** Insufficient information available.

**Other adverse effects** Insufficient information available.

## 13. DISPOSAL CONSIDERATIONS

**Safe handling and disposal methods** This product may be recycled if unused, or if it has not been contaminated so as to make it unsuitable for its intended use. If it has been contaminated, it may be possible to reclaim the product by filtration, distillation or some other means. If neither of these options is suitable in-house, consider controlled incineration, or contact a specialist waste disposal company.

**Disposal of contaminated packaging** Household quantities of contaminated packaging should be disposed of in household kerbside collection. Industrial quantities should be dealt with as industrial waste under applicable laws.

**Environmental regulations** Disposal of product and empty packaging must always be in accordance with applicable environmental protection legislation.

## 14. TRANSPORT INFORMATION

**Transport information**

ADG Code:	Not classified as dangerous goods
NZS5433:2007:	Not classified as dangerous goods
IMDG Code:	Not classified as dangerous goods
IATA	Not classified as dangerous goods
