ASSEMBLING & ATTACHING THE END PANELS

Remove the panel and frame from the carton and choose which side of the panel needs to face towards the outside which should be the same color as the doors chosen (The panel is reversible depending on color chosen).

Attach the End Panel attachment plate to the end panel frame by using the screws provided.

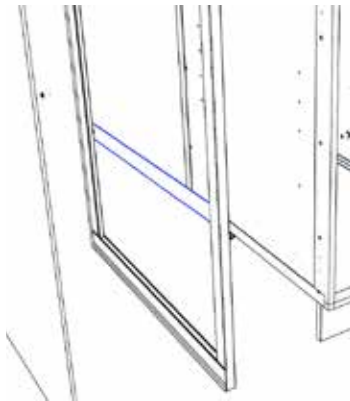

FIG. 2

Align the screws and pre drilled holes and attach the plate onto the end panel frame.

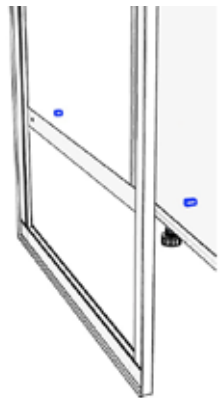

FIG. 3

Remove the four Small screws from the Aluminum frame surrounding the stone top.

FIG. 4

Take long screws 6g x 30mm and align the end panel frame and module, screw into stone top frame to anchor the end panel.

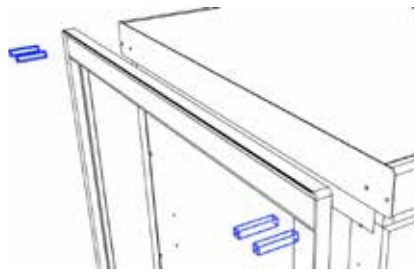

FIG. 5

Ensure screws are flush with the frame after screwed into place.

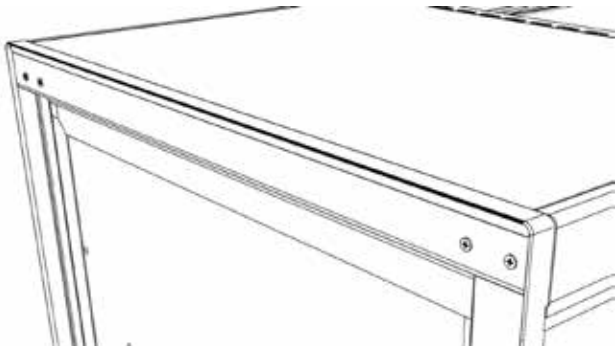

FIG. 6

Left View Of Cabinet showing the End Panel Frame attached to the Cabinet by the top 4 x screws at this point.

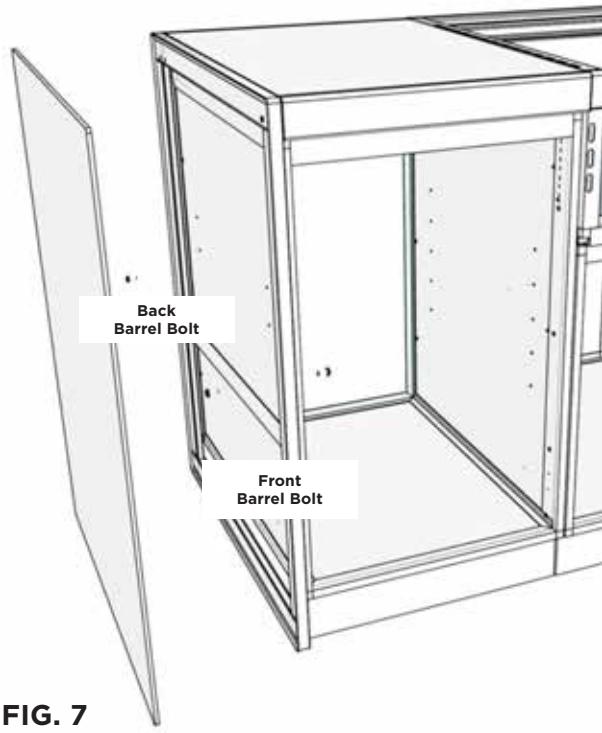

FIG. 7

Right hand View of Cabinet showing the view of the End panel Frame Connected to the Cabinet.

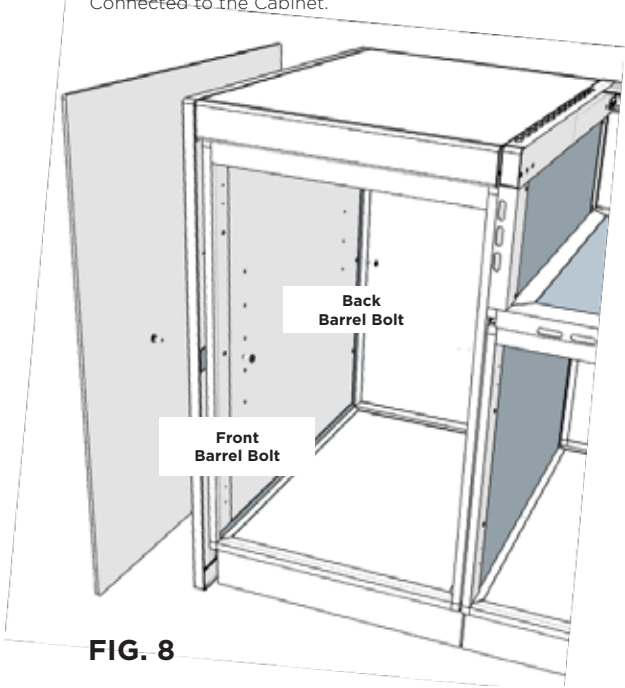

FIG. 8

Align, Insert and Tighten the Barrel Bolts with the Allen key Provided.

Please Note there are two Barrel Bolts that needs to be inserted and tightened, front and back.

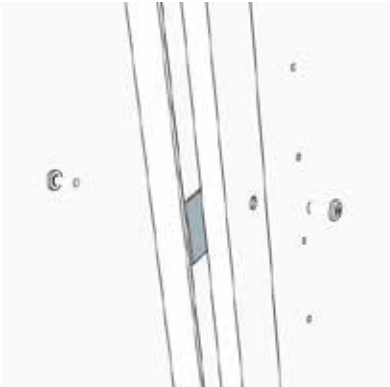

FIG. 9

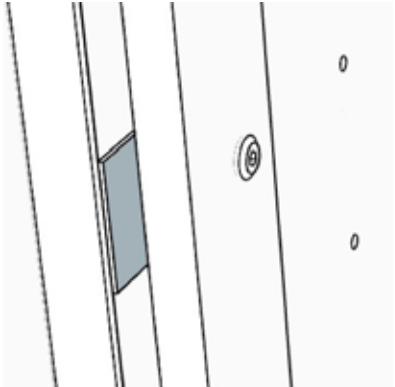

FIG. 10

Remove red double sided tape from frame and align panel, ready to stick onto frame.

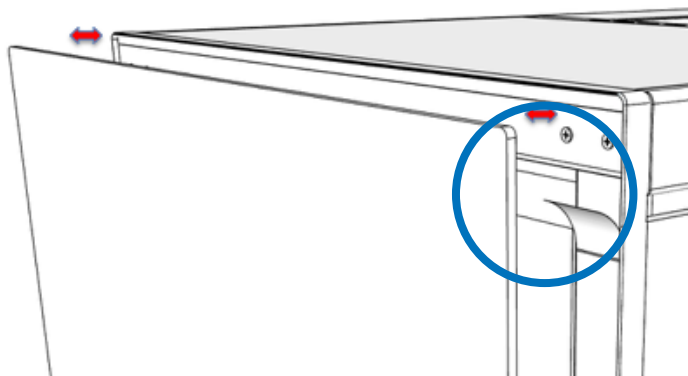

FIG. 11

Your panel should resemble the diagram below. Please press onto all edges firmly to ensure that the double sided adhesive tape permanently attaches the panel to the frame.

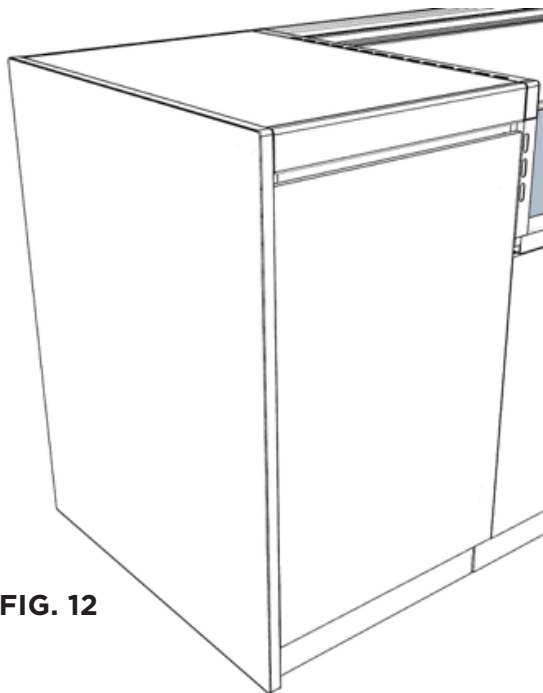

FIG. 12

Layout and assembly for direct attachment to the airframe side panel.
