

Earl's MultiFill

Ready To Use • interior/Exterior • No Waste

Ready To Use Fine Filler

MultiFill is ready to use and is used directly from the container. If it dries out add a few drops of water. Keep the container sealed when not in use.

Will Not Shrink, Sink Or Fall Out

MultiFill sets hard when dry and will not shrink as it is acrylic and latex free

Long Shelf Life

MultiFill should last up to 5 years if the container is sealed tightly

Spreads Easily

For an easy application wet putty knife when using

Interior/ Exterior

Can be used for all applications, however MultiFill does not take stain evenly

No Acrylic, Latex or Solvents

MultiFill has no acrylic latex or solvents. It is harmless, however whenever sanding always wear a suitable dusk mask.

No VOC's

MultiFill is VOC free and is therefore harmless. Furthermore, it remains stable.

Sands Easily, Does Not Clog Sandpaper

Use 120 grit sandpaper or finer. Does not blind(clog) the paper if sanded when dry.

Takes Almost All Known Coatings

Always test some coating on the filler prior to use. If using a clear coat add colorants or oxide prior to using MultiFill. It is advisable to coat MultiFill once dry.

No Waste

Return unused MultiFill to the container
