

# TRADE N GO GAS™ IS SO EASY

- Never pay cylinder rental again.
- Convenient swap locations available 7 days a week.
- Return your empty Coregas cylinder to store and with an easy return transaction and resale, you're on your way again.
- Larger volumes mean less changeovers:
  - 1.0 m<sup>3</sup> acetylene D size
  - 2.1 m<sup>3</sup> oxygen D size
  - 2.1 m<sup>3</sup> argon D size
  - 2.1 m<sup>3</sup> Coregas 5/2 MIG shielding gas D size

Available at  
**BUNNINGS**  
warehouse

## HERE'S HOW IT WORKS:

1. Purchase acetylene, oxygen, argon or Coregas 5/2 MIG shielding gas supplied in the Coregas cylinder provided. See price on the cage.
2. When you're finished with your gas, simply return the empty Coregas cylinder to the store for a return transaction. See value of return on the cage – the difference is the value of the gas inside.
3. Start the process again. It's that simple!

**Please note:** only Coregas oxygen, acetylene, argon and Coregas 5/2 MIG shielding gas D size cylinders will be swapped over at participating stores. Cylinders remain the property of Coregas at all times.
