

OIL PRODUCTS

Diggers Pale Boiled Linseed Oil

DESCRIPTION

Diggers Pale Boiled Linseed Oil is a TREATED linseed oil with ADDED DRYING AGENTS to speed up drying time.

TYPICAL USES

- Timber sealer and protector for indoor furniture and cabinets
- Wooden tool handles and sporting equipment
- Thinner for artists' oil paints
- Sealer and protective coating for concrete paths, floors, flagstones and interlocking stones

FEATURES

- Added drying agents (dries faster than **Diggers Raw Linseed Oil**)
- Creates a finish that is generally impervious to water, heat, scratches and most stains
- Helps aid brushing when added to oil based paints
- Dries lighter in colour than **Diggers Raw Linseed Oil**

APPLICATION

Timber Protection

1. Clean and dry surface. Mix **Diggers Pale Boiled Linseed Oil** 50:50 with **Diggers Mineral Turpentine** for increased timber protection.
2. Apply two coats with a brush, roller or spray gun. **Diggers Pale Boiled Linseed Oil** should be applied in very thin coats and rubbed well into the wood. It is important to allow drying time between coats. Clean excess oil with a clean lint free cloth to avoid the surface drying sticky.

How does Linseed Oil work? When linseed oil is applied to a porous surface it fills the pores and as it is exposed to the air it gels to form a protective film. The film is generally impervious to water, heat, scratches and most stains.

NOTE: Soak rags in water as spontaneous ignition may occur on drying. Dispose of rags by controlled incineration or at an approved landfill.

SAFETY

Wear suitable protective clothing, gloves and eye / face protection when using this product.

Typical Characteristics

Appearancegolden-brown
viscous fluid

Specific Gravity..... 0.92

Flash Point.....150°C

Auto Ignition Point.....350°C
